Re: Inquiry about Water Right Claims filed by W.G. and Shirley Atteberry

Dear Mr. Eagle:

During the course of two days, I received inquiries from Creed Noah, you, and the watermaster for the Weiser River, Bosco Bosler, about several water right claims filed by W.G. and Shirley Atteberry. The water right claims assert ownership of all or portions of water right nos. 67-267, 67-276, and 67-277. My search of the electronic database of the Idaho Department of Water Resources (IDWR) raised several questions that I will attempt to answer in this letter.

The IDWR database shows two active adjudication claims, numbered A67-267A and A67-267B, in the name of Atteberrys. When the two claim records are compared, the components of the records are identical to each other. Each claims a diversion rate of 0.25 cfs.

The original water right decreed in the case of Muir v. Allison, authorized a diversion rate of 0.27 cfs. The place of use described in the claim records does not match the original place of use. The priority date entered into the claim records does not match the priority date assigned by the Muir court. Bosco Bosler told me that water right 67-267 has been delivered to Ethel Pearson not to Atteberrys. I cannot find any hard copies of claim nos. A67-267A and A67-267B. Other adjudication records show that all of water right no. 67-267 was claimed in the Snake River Basin Adjudication by combining with other water rights in two other claims, numbered as A67-10042 (.003 cfs to Lamar & Ernestine Hill) and A67-12338 (0.266 cfs for Ethel Pearson & Robin Thorsen). In other words, nothing in the electronic records of IDWR matches with recorded historical information about water right no. 67-267.

Atteberrys also claimed water right no. 67-276. The flow rate, place of use, and priority date for water right 67-276 as decreed by the Muir court are identical to the numbers recorded in the claim reports for A67-267A and A67-267B.

After consulting with adjudication staff in this office, I have concluded that when Atteberrys attempted to file adjudication claims for water right no. 67-276, the number was transposed during data entry to 67-267. Sometime during the remainder of claims taking, the error was detected, but the original transposed entries were not removed from IDWR's database. As a result, Atteberrys do not own any portion of water right no. 67-267, and the water right has already been claimed elsewhere. The printouts for adjudication claim nos. 67-267A and 67-267B that were previously distributed should be discarded.

The history of the adjudication claims filed and recorded for water right nos. 67-276 and 67-277 is also confusing. Rather than recite the entire history, the following are the active adjudication claims pending before IDWR:

Claim no. 67-276C	Atteberry	0.175 cfs	Priority: 5/01/1889
Claim no. 67-276E	Bemis	0.075 cfs	Priority: 5/01/1889
Claim no. 67-277C	Atteberry	0.104 cfs	Priority: 5/01/1892
Claim no. 67-277E	Bemis	0.046 cfs	Priority: 5/01/1892

Previously distributed printouts for any other adjudication claims related to water right nos. 67-276 and 67-277 should be discarded. In particular, printouts for claim nos. 67-276A and 67-277A should be discarded because these numbered rights have been superceded.

I have enclosed summaries of the four active claims listed above with this letter. If you have questions please call.

Sincerely,

Gary Spackman

W.G. Atteberry
