SUBJECT: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 94-7226

Dear Mr. Bissell:

We're in the process of reviewing the above numbered Notice of Claim for recommendation in the CSRBA. This is the claim based on the licensed right of the same identification number which usage is for the irrigation of 5 acres from a storage pond.

From looking at taxlot data supplied by Kootenai County it appears that your parcel may have changed somewhat. Consequently, I have enclosed a map and ask that you show on this map where the irrigation is occurring and where the spring and pond is located. Also enclosed is a copy of the claim and an extra map, for your records.

Because we will be completing our recommendations on all claims in your area within the next several months, please return this information, to my attention, by **February 23, 2015**. Be sure to contact me if you have any questions. I can be reached at (208) 762-2802 or by email at linda.werner@idwr.idaho.gov.

Sincerely,

Linda A. Werner
Water Resource Agent, Sr.

From: Linda Werner, Water Resource Agent, Sr. J.W.

Subject: Phone Conversation with Angelo Bissell on Water Usage

On February 6, 2015 I wrote a letter to Mr. Bissell requesting information on the location of the place of use because my preliminary recommendation of the claim showed that the northern portion of his property may have been subdivided.

Mr. Bissell called me today to advise me that there has not been a change in the place of use and that irrigation is occurring on the five acres in the middle of his property. (He is renting out the northern portion of the property.) He also advised me that the diversion and pond are located at the northeast corner of his property.

Consequently, the claim is being recommended as licensed.
