Additional explanation or supporting documentation of the error:

A partial decree was issued for water right no. 34-10444 on November 15, 1996. However, the address in the Idaho Department of Water Resources' (IDWR) database is different than that on the partial decree. IDWR recalls that the U.S. Post Office (USPS) advocated making changes to addresses with rural route numbers to reflect the street address of the property instead. These changes and updates were made per USPS records and did not require a change of address from the water right holder. IDWR does not have any documentation as to when the address was updated but requests that the corrected partial decree reflect the updated address.

IDWR has discovered errors in the county designation listed under the Point of Diversion (POD) element as shown in the water right listed above. The database error occurred in the recommendation of this right, which then carried over into the partial decree. The error was only recently discovered.

IDWR is requesting correction of the county listed under the POD be amended as shown above.

For more information about the error the Court and/or water right holder should contact the person identified below.
