WATER RESOURCES

April 12, 2015

DEAR Mr. Chelland

My Dad and Mother, Benjamin Wayne Tester and Gladys J. Tester, owned 320 contiguous Acre's on Eagle creek for many decade's. The description of land they owned was the following. H.E.S. 72, H.E.S. 187, H.E.S. 188, H.E.S. 190 and the patented mining Claim Silver Bow 828.

In the mid 1960's, My Dad Aquited water-right's to irrigate pasture land and hay field's. We had about 100 Acre's of Hay field's and the rest was pasture land. I spent many Summer's moving irrigation pipe to water the hay field's and pasture land.

In 1988 I inherited 21 acre's of H.E.S. 190. This is the property that my wife and I live on and take care of. I've lived on Eagle creek for 68 year's. I've Enclosed an overhead picture of the property and the Pond in question. This pond is Fed by under ground spring's only. There is no creek water running into it. I irrigate the pasture around the Pond and my garden with water from the Pond.

I hope that this is sufficient information for you.

Sincerely

Grant D. Tester
