Additional explanation or supporting documentation of the error:

IDWR has discovered errors in the county designation listed under the Point of Diversion (POD) and Place of Use (POU) elements as shown in the water rights listed above. The database errors occurred in the recommendation of these rights, which then carried over into the partial decrees. The errors were only recently discovered.

To correct the above-described errors, on March 31, 2015, IDWR submitted to the Court a Request for Correction of Error regarding the partial decrees of water right nos. 72-2216 and 72-10626 ("Original Request"). A further review of the Original Request revealed a discrepancy beyond the correction of the county error, between the original 1997 Partial Decree and the Proposed Correction to Partial Decree 72-2216. Specifically, the tributary described on the 1997 Partial Decree is "Spring Gulch," while the Proposed Correction described the tributary as "Spring Gulch Creek." This discrepancy should have been identified by underscore in the Proposed Correction.

To avoid any possible confusion, IDWR is submitting this Amended Request for Correction of Error regarding the partial decree for water right no. 72-2216, requesting correction of the county designation error and correction of the tributary element of water right no. 72-2216. The Proposed Correction to Partial Decree 72-10626 included in the Original Request did not need revision.

For more information about the error the Court and/or water right holder should contact the person identified below.
