Case No. 39576

NOTICE OF INTENT TO CORRECT
CLERICAL ERROR AND ISSUE AMENDED
PARTIAL DECREE

On December 16, 2005 the *Director's Report* (Idaho Department of Water Resources, *Director's Report, Basin 63, Part II*) was filed and included a recommendation for the above-captioned water right claim. No objections were filed to the director's recommendation. Prior to the hearing held on the uncontested rights for Basin 63, the Court discovered a clerical error in the recommendation; to wit: there was an error regarding the total quantity of the water right. The Court withheld issuance of the partial decree. On July 19, 2007, the Court received correspondence from the Idaho Department of Water Resources confirming the clerical error in the *Director's Report* regarding the quantity of the irrigation acreage discrepancy for the water right. The Quantity element stated 0.12 cfs was designated as the total quantity of the right, when the total quantity is 0.08 cfs – as described under Quantity under the Period of Use element.

Therefore, it is the intent of the Court to issue a *Partial Decree* for this water right consistent with the attached draft *Partial Decree*. If any party shall have an objection to the intended changes, they may submit any objections to the Court and a hearing will then be held on the matter. The deadline for receipt of such objections is August 28, 2007. However, if there are no objections, a *Partial Decree* will be issued.

Please review it and call me at (208) 334-2190 if you have questions.

Sincerely,

Vicky L. Music

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

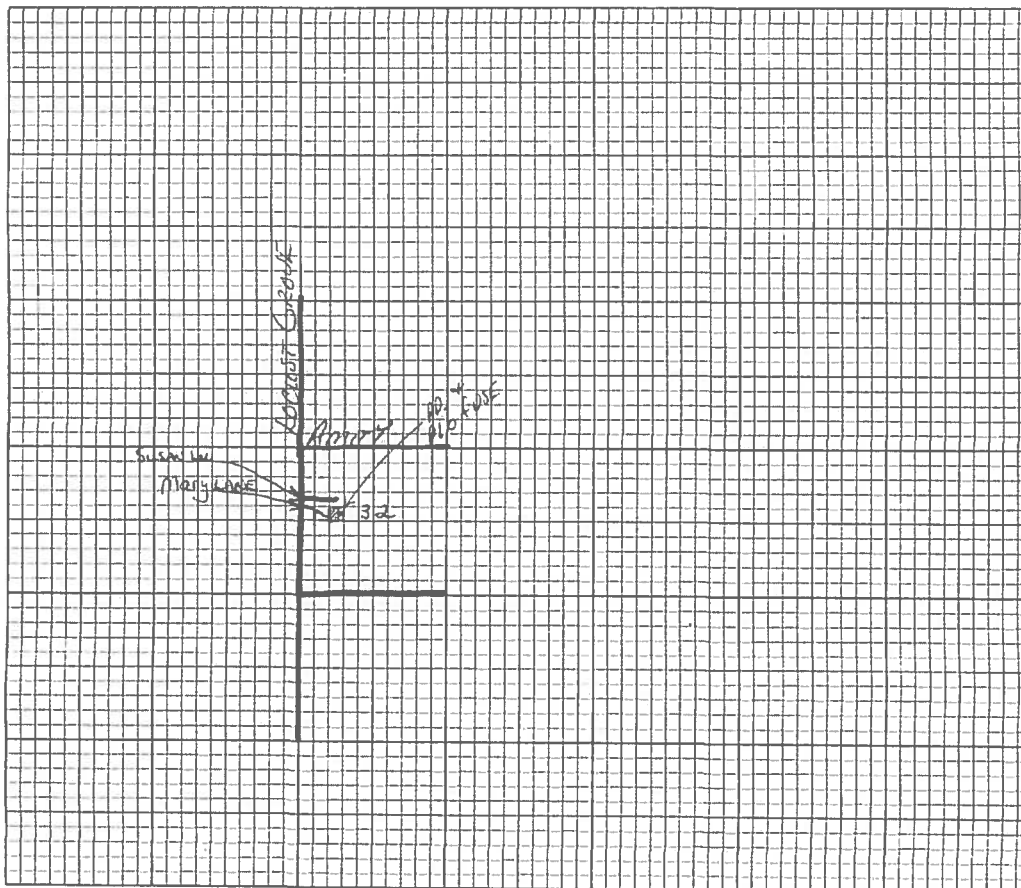

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 9th day of MARCH, 1990.

The vacant 5 acre parcel south is not owned by him, but was irrigated by the previous owner from this well & yrs previous. It is not now being irrigated due to new ownership. However, Mr. Dellick is negotiating buying this property & will irrigate it at that time. I recommend including the 5 acre parcel since it was irrig. yrs ago with this well.
