Permit No. 20835

This proof is for Beneficial use In Water District No. _____

1. Name of applicant Mrs. D. M. Deougher, Route 4, Caldwell, Idaho
2. Source of water supply: Subterranean from a well
3. Location of point of diversion: Is in the NW 1/4 NE 1/4 of Section 17
T. 3 N. R. 3 W. County of Canyon 10 paces from the center of the paved road to the well, 100 paces from the NW corner of the property to the well.
4. Describe works as they exist, giving dimensions and capacities of same: A small roof shelter covers the pump and motor. There is a concrete base on the top of the well. The pump is a Fairbanks Morse-Pamona turbine pump, serial No. P.E. 7827, mounted directly on casing. Motor is Fairbanks Morse, capacitor 2 h.p., type - K.C., 60 cycle, single phase. The well is 145' deep by 4" diameter, cased 139' down. Impeller is in a 3" pipe. The distance to water is approximately 75 feet. The pump is down 90 feet. The draw down is unknown and the lift is between 75 and 90 feet. The discharge pipe is 7 1/2 inches long by 2 1/2 inches inside diameter. Discharges into a concrete pump 3' by 2 1/2' by 1' deep. The ditch is 18 inches wide at the water line and is a very shallow ditch.
5. Water is used for: Irrigation and domestic purposes.
6. State whether or not water has been turned into works of diversion: Yes
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):
NW 1/4 NE 1/4 Section 17, Twp. 3 North, Range 3 West, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____
- Remarks: The temperature of the water is 12 3/4 degrees centigrade. The output of the pump is 24 gallons per minute or 2 2/3 inches. This is full capacity of the pump.
The well is located in the front yard between the house and the road. The land irrigated is approximately five acres or the whole of the tract described. The whole of the place is in wheat at present.

MEMORANDUM

TO: ADJUDICATION CLAIM FILE 63-32081

FROM: DANIEL A. NELSON

DATE: 5/23/06

SUBJECT: CLAIM REVIEW

This claim was filed as a portion of an older licensed right 63-2747 with the same priority date. The claimant filed on 4 acres and the domestic portion of 63-2747, however, upon reviewing the Canyon County tax lot data, the claimant only owns 2.5 acres of this original water right. The only home within the borders of this older water right that was built in the 1947 is the neighbor, Mr. Roberts, who lives in the lot south of the claimant. Mr. Roberts filed his portion of the water right with domestic right 63-25425 which has already been decreed. The tax lot data states the home on the property owned by the claimant was built in 1979. Therefore, I cannot allow a domestic use with this water right. However, the claimant can file another water right or claim with the 1979 priority date.

According to the tax lot data the claimant only owns a 2.5-acre parcel. Therefore, he is only entitled to his portion or $\frac{1}{2}$ of the original licensed irrigation amount of 0.06 cfs for 5 acres. The portion of this original license belonging to the claimant is 0.03 cfs and 2.5 acres. Mr. Roberts is the only person entitled to claim the domestic portion of this right. The neighbor on the north lot has already claimed their share of the irrigation portion of this right in water right 63-28723. However, they drilled a replacement well for their property in 1976, so they no longer seem to be on the same system. Since that well was drilled prior to 1987 it is acceptable as an accomplished transfer.

The claimant appears to have also drilled a second well in 1964. Whereas it appears as though this second well only services his property, it will only be placed on this recommendation. This second well can also be considered an accomplished transfer, since it was drilled prior to 1987. Therefore, two points of diversion will be recommended for his claim only.

Comments:

1. dnelson 5/23/2006 Claimant Remarks

Comment: This claim is for a portion of Right No. 63-2747. Second well added in 1964.

2. dnelson 5/23/2006 Claim Review

Comment: This claim was filed as a portion of an older licensed right 63-2747 with the same priority date. The claimant filed on 4 acres and the domestic portion of 63-2747, however, upon reviewing the Canyon County tax lot data, the claimant only owns 2.5 acres of this original water right. The only home within the borders of this older water right that was built in the 1947 is the neighbor, Mr. Roberts, who lives in the lot south of the claimant. Mr. Roberts filed his portion of the water right with domestic right 63-25425 which has already been decreed. The tax lot data states the home on the property owned by the claimant was built in 1979. Therefore, I cannot allow a domestic use with this water right. However, the claimant can file another water right or claim with the 1979 priority date.

According to the tax lot data the claimant only owns a 2.5-acre parcel. Therefore, he is only entitled to his portion or ½ of the original licensed irrigation amount of 0.06 cfs for 5 acres. The portion of this original license belonging to the claimant is 0.03 cfs and 2.5 acres. Mr. Roberts is the only person entitled to claim the domestic portion of this right. The neighbor on the north lot has already claimed their share of the irrigation portion of this right in water right 63-28723. However, they drilled a replacement well for their property in 1976, so they no longer seem to be on the same system. Since that well was drilled prior to 1987 it is acceptable as an accomplished transfer.

The claimant appears to have also drilled a second well in 1964. Whereas it appears as though this second well only services his property, it will only be placed on this recommendation. This second well can also be considered an accomplished transfer, since it was drilled prior to 1987. Therefore, two points of diversion will be recommended for his claim only.

REPORT OF ENGINEER

Permit No. 20835This proof is for Beneficial use

In Water District No. _____

1. Name of applicant Mrs. D. M. Beougher, Route 4, Caldwell, Idaho
2. Source of water supply: Subterranean from a well
3. Location of point of diversion: Is in the NW 1/4 NE 1/4 of Section 17
T. 3 N. R. 3 W. County of Canyon 10 paces from the center of the paved road to the well, 100 paces from the NW corner of the property to the well.
4. Describe works as they exist, giving dimensions and capacities of same: A small roof shelter covers the pump and motor. There is a concrete base on the top of the well. The pump is a Fairbank Morse-Pomona turbine pump, serial No. P.H. 7827, mounted directly on casing. Motor is Fairbanks Morse, capacitor 2 h.p., type - K.C., 60 cycle, single phase. The well is 145' deep by 4" diameter, cased 130' down. Impeller is in a 2 1/2" pipe. The distance to water is approximately 75 feet. The pump is down 90 feet. The draw down is unknown and the lift is between 75 and 90 feet. The discharge pipe is 7 1/2 inches long by 2 1/2 inches inside diameter. Discharges into a concrete sump 3' by 2 1/2' by 1' deep. The ditch is 18 inches wide at the water line and is a very shallow ditch.
5. Water is used for: Irrigation and domestic purposes.
6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NW 1/4 NE 1/4 Section 17, Twp. 3 North, Range 3 West, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: The temperature of the water is 12 3/4 degrees centigrade. The output of the pump is 24 gallons per minute or 2 2/3 inches. This is full capacity of the pump.

The well is located in the front yard between the house and the road. The land irrigated is approximately five acres or the whole of the tract described. The whole of the place is in wheat at present.

Mr. Beougher works for the P.F.R. at Nampa.

Place lies just above Burris Canal.

Installation cost \$1200

Dear Mrs. Beougher:

We acknowledge receipt of your memorandum, stating that the well described under Permit No. 20835 is finished and in use for irrigation purposes only and not for domestic purposes.

Do we understand from this that you are prepared to make Proof of Completion of Works as described in the Permit? If so, you may execute the enclosed affidavit before a Notary Public and return to this Department with the statutory fee of \$5.00; upon receipt and approval of which, a Certificate of Completion of works will be issued.

There will then be the Proof of Beneficial Use required to complete your water right and obtain a License. However, this proof should not be made until the water has been fully applied to beneficial use and if you intend to use it for domestic purposes later on, an extension can be allowed of the time for making this final proof. Otherwise, if the water is to be used for irrigation only, you may make the proof at any time prior to December 31, 1949, and we shall furnish you the necessary forms upon request.

Very truly yours,

Re.: Permit #20835

Dear Miss Anderson;

Thank you for your letter of August 25 enclosing the proof of completeing of works on the well we have drilled. The complete form is enclosed.

We are ready to file Proof of Beneficial Use if it is in order. The well is complete and the pump is in, but the growing season is now over and we do want to do some more leveling. Before making these improvements, will we have to furnish new proof?

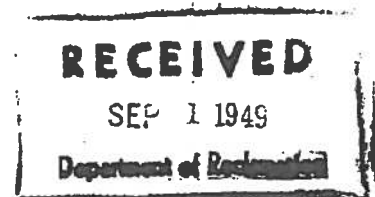

Kindly advise us what you require and we shall be guided by your suggestion.

Very truly yours,

Mrs D.M. Beougher.
