An abstract geometric diagram consisting of a network of thin black lines on a white background. The lines form a grid-like structure with various rectangular and polygonal shapes. A prominent horizontal line runs across the upper third of the image. A vertical line runs down the center. Several other lines intersect at different points, creating a complex pattern of shapes. A large, bold number '10' is superimposed on the central part of the diagram. There are several small, irregular shapes and rectangles scattered throughout the diagram, some of which are outlined with thicker lines than the main grid.

Re: Original Notice of Claim to a Water Right No. 63-8189

Renumbered Notice of Claim to a Water Right No. 63-32249

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim represents a split of the claim filed by a previous owner during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience, as we have had several water right changes to process. Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

Adjudication Section
Western Region
