Hi Steve,

Perhaps we should arrange a time that I can try to call you to be sure we provide the proper information.

We will be calling from Panama, which is on Eastern time.

Our cell number in the USA (978 855-0685) is suspended when we are in Panama. Our Panamanian numbers are (507) 60339356 and (507) 60232879.

There is currently no house on the property, but there is a barn and shop completed in 2012. We have septic in (it was present when we bought the property) and a deep drinking water well and 2 shallow wells for irrigation.

We currently spend part of the year in Idaho and have a travel trailer we use when there. We operate the well pumps with a generator as we have not yet installed electricity with Avista. We do plan to eventually build our primary residence on the property.

Please let me know what your schedule is and what times would be best to call. Internet and phone service can be spotty as we are in some remote islands off of the Caribbean coast of Panama.

Best Regards,
Liz
