Dear Interested Party,

Put in
SRBA claim.

Enclosed you will find a questionnaire regarding the proposed gravity water delivery system for the Little Wood River Irrigation District. Please take a minute to give us your thoughts and ideas and return the questionnaire to the address stamped on the reverse side. Simply fold the paper, staple and apply a stamp.

Your input is important to us. Thank you for your participation.

Sincerely,

Little Wood River Irrigation District Scoping Meeting Questionnaire

In order to address the major resource concerns, in regards to the Little Wood River Irrigation District's proposed project, we ask that you 1) list your concerns, 2) rank your concerns with a High, Medium, or Low Priority, and 3) tell us why this is a concern.

Potential Resource Concerns	
-Soil (Erosion) (Sedimentation)	4/5/02 By piping the canals there may be significant "savings of water" or increased application efficiency that may lead some to conclude that more acres could be developed.
-Water (Quantity) (Quality)	This water spreading should not occur. The "savings of water" may impact historical recharge to the aquifer. If historical recharge is decreased then local wells may be affected.
-Air	
-Plants and Animals (Threatened & Endangered)	Any freeing up of water should be used to enhance flows in river and provide for a future recharge project to compensate loss of historical recharge the project causes.
-Human (Cultural Resources) (Safety & Health)	The project may require water right transfers for points of diversion changes. Future recharge project would also require water right filings.
-Wetlands	
-Riparian	
-Other Comments or Alternatives	Allen Abbott LDWR 208-736-3033
