I spoke with Cindy Robertson concerning her letter. I informed her of the water rights involved and what was included on them. I explained to her that the only way to resolve the issue if there is an issue is to file the claim and wait for the recommendation.

Dear Jeff:

Enclosed is information our Regional Wildlife Land Manager in Jerome received from the Bureau of Reclamation (Bureau) regarding our filing for water right no. A37-02779 (partial). The claim was for 2,000 acre feet of storage in Little Wood Reservoir for the purpose of wildlife propagation and irrigation at the Carey Lake Wildlife Management Area. Along with the claim form, we submitted a copy of a signed agreement between the Department of Fish and Game, Little Wood Canal Company, and the Little Wood Irrigation District regarding the storage at Little Wood Reservoir.

Based on the letters and notice of proof of beneficial use the Bureau sent to us (attachments), it appears they do not believe we have a claim to the 2,000 acre feet of storage granted us in the original agreement, dated February 20, 1956. Can you clarify the situation for me? Does this affect the status of our claim for the 2,000 acre feet? We were unaware of the attached material when we filed our claim in November, 1990. If you can shine some light on this for me, I would be grateful.

Sincerely,

Cindy Robertson
Fishery Biologist

Subject: Proof of Beneficial Use, Little Wood River Reservoir

In reference to the several documents upon which the operating plan of the Little Wood Reservoir is predicated, we infer that the 2,000 acre feet of storage space need not be allocated to the Idaho Fish and Game Department for use at Carey Lake.

1. The Little Wood River Project - Definite Plan Report says, "Storage water in Little Wood Reservoir for fish and game and delivery of this water to Carey Lake when needed to maintain the lake at an area of approximately 500 acres will mitigate the fish and game losses that would be created with the project- -" The carryover of the water allocated to fish and wildlife will have the beneficial effect of providing additional water for the minimum pool in Little Wood Reservoir at times when it would not otherwise be available.

2. House Document No. 381, 84th Congress, 2nd Session, Page 13, (2), "That only water surplus to meeting the irrigators needs would be available for diversion to Carey Lake".

3. The Contract No. 14-06-100-1549 between the United States and The Little Wood River Irrigation District states on Page 10, b. "Project operation shall be in accordance with the plan outlined in House Document No. 381, 84th Congress, 2nd Session."

We concur in your thinking that the space is available by agreement.

Subject: Proof of beneficial use, Little Wood River Reservoir

We plan to proceed with the filing of beneficial use in connection with permit No. 9-1049 for Little Wood River Reservoir. A draft of a proposed notice of publication is enclosed for your review.

This filing is a little awkward in that the District filed on 17,000 acre feet of additional capacity because of reconstruction of the dam, and the United States filed on 18,000 acre feet. The State permitted the District to perfect its filing for 17,000 acre feet of capacity, so there is only 1,000 acre feet left under our permit.

As you know, 2,000 acre feet of storage have been allocated to the Idaho Fish and Game Commission for its Carey Lake Fish and Wildlife Refuge. As we understand the situation, the District has perfected its permit without reference to the 2,000 acre feet allocated to the State Fish and Game Commission. We have only 1,000 acre feet of space (actually less than 1,000 acre feet as the total added capacity of the reservoir is less than 18,000 acre feet). Our plan is to attempt to complete our filing without reference to the 2,000 acre feet of storage, with the thought that the space has been made available to the State by agreement. We do not know what the State Engineer will do with our filing.

We would appreciate your comments.
