Re: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA)
Notice of Claim No. 94-4235

Dear Mr. Fritschle:

This is in response to your letter of May 26, 2015 which I received on June 1, 2015. You have requested that Gold Creek Mines, Inc. ("Gold Creek") provide additional information relating to the mining use in order to support the Claim for a January 1, 1954 priority date. Gold Creek has been working on the information which will be responsive to your letter but in all likelihood we will not be able to provide that to the IDWR by June 30, 2015 as request in your letter. People that I need for assistance are vacationing. I am, therefore, respectfully requesting additional time. I note that Gold Creek submitted a letter in June 2014 and your recent letter was in response to that information.

Gold Creek is researching historical information regarding mineral prices and other evidence of a valuable mineral on the property. I can report, however, that the Gold Creek has maintained the property and mineral rights by the payment of all taxes on fee land owned by Gold Creek, maintenance of the dam and piping infrastructure. The chain of title on the fee land does not exclude mineral rights: the mineral rights have not been severed. As to the unpatented mining claims, Gold Creek has made all required filings and paid all filing fees with the Bureau of Land Management. Since 1954, either Gold Creek, its predecessors or a Lessee has made those payments and filings. The unpatented claims are currently in good standing with the Bureau of Land Management.

Gold Creek respectfully requests that it be allowed until July 31, 2015 to provide the additional information.

Thank you for your consideration and cooperation.

Very truly yours,

HULL & BRANSTETTER CHARTERED
