Subject: Phone Conversation with Steve Meyer, Representative of Tsee Illahee
Claim 95-4478

This statutory claim is for domestic use of 3 homes and 10 acres of irrigation from Coeur d'Alene Lake and springs. Mr. Meyer states that they are not irrigating 10 acres and haven't been since about the time the claim was filed. (Claim filed on September 22, 1981.) He gave me this information when I called him last week in regard to setting up a field exam, which we set for 6/18/2014. Upon 2nd thought and conversation with Chad, it was decided that a field exam wasn't necessary. Called Mr. Meyer this am before leaving for our appointment and he reiterated that they're not irrigating the 10 acres. He also stated that they are not diverting from Lake Coeur d'Alene, only from the springs, which they're using for 3 homes and a small amount of lawn irrigation. All homes are owned by Tsee Illahee LTD.

He was concerned about losing the right to irrigate from the lake and I advised him that they could apply for a permit in the future if they decide they'd like to irrigate again. I also advised him that we would recommend the claim for 3 homes from the springs. He will consult with the other owners. In the meantime, I'm sending him a water user's information guide.

FIELD EXAM NOTICE

RE: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No(s): 95-4478, 95-12529, 95-12530

To Whom It May Concern:

Idaho Department of Water Resources (IDWR) is planning to conduct water right field examinations in the vicinity of your CSRBA claim during July, 2014. The examination is required for the Department to verify the elements of your claim and prepare an accurate recommendation to the CSRBA Court concerning your claim.

Please contact me prior to **July 3, 2014** to schedule a field exam at your property to include the water system point of diversion, domestic/irrigated water use area, and pipes, storage tanks, equipment, etc., that deliver water to your property. Please be advised that a person who is familiar with your water system must be available to operate the system under normal conditions during the field examination.

I can be reached at (208) 762-2800/2802 if you have any questions.

Sincerely

Linda A. Werner
