SUBJECT: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-4478

Dear Mr. Meyer:

In regard to our phone conversation of June 18, 2014; enclosed is a water user's guide regarding Idaho water rights. I'm also enclosing an application for permit, with instructions, should you decide to begin irrigating.

I'm enclosing a map of the property. Would you please indicate where the springs and homes are located and return to this office? The springs should be plumbed together and the usage at the homes should have begun at the same time as the priority date, which was claimed as January 1, 1950. We may than recommend the claim for domestic usage for three homes and ½ acre or less of lawn irrigation. (An amended claim will not be necessary since the usage is decreased from ten acres to domestic use, resulting in a decrease in quantity.)

Please bear in mind that by claiming a priority date of January 1, 1950, all three homes were in place and the water was used from the springs since that time for that purpose. If the other homes were added at a later date, they may still be claimed on the same form but with a priority date of when the last home was hooked up to the system.

I am enclosing a copy of Notice of Claim number 95-4478. If you do need to make any changes, please initial and date such changes and return to my attention, with the map. I can be reached at (208) 762-2802 or by email at linda.werner@idwr.idaho.gov.

Sincerely,

Linda A. Werner
Water Resource Agent
