Joe Terteling recalls that approximately 5 acres of the area immediately adjacent to and near 7000 Bogus Basin Road was irrigated by both surface and groundwater through a system of ditches. The diversion from Stewart Creek, together with the ditches conveying the water were destroyed in the mid 1990s when Bogus Basin Road was rerouted and reengineered further downstream in Stewart Gulch.

If you need further information, please contact me for the same.

Charlie and Tom -

I am very sorry about the short timeline, however, the sheer number of claims filed by your client, including late claims filed only a few weeks ago and the confusion regarding the licenses 63-3603 and 63-7595 that resulted in amended claims being submitted just 3 weeks ago, have caused these preliminary DRs to be sent with a short NOE period. My deadline for having recommendations done is Dec 2 and the Basin 63 Part 2 DR is due to be submitted around Dec 13. Submitting a notice of error will most likely not affect my recommendations because I really don't think there are errors in the preliminary DRs that can be corrected by the NOE process, such as typos or changes in ownership, but you may submit them when you can through December 9. We will have to let the objection procedure handle the substantive issues as is usual.

8 of the 12 preliminaries sent this week [63-31056 is listed twice in your email] are associated with 3 of the 4 residences on the property and I attempted to group those together so they could be reviewed together. They are small domestic and stock.

Lastly, I will be adding to the recommendations for 63-12, 63-13, 63-15 and 63-308 the combined use POU remark for 171 acres. For 63-12, 63-13, 63-15, 63-3603 and 63-7595, I will be adding the temperature of the water. I will not send out an new preliminary on these.

Hope this helps -

Subject: Preliminary Recommendations/Notices of Error

Vicky: Preliminary recommendations for the following water rights have been sent via e-mail to Tom Terteling and I over the past two days:

11/23/2005

63-27649, 63-27671, 63-31054, 63-31055, 63-31053, 63-31050, 63-31052, 63-31062, 63-31056, 63-31057, 63-31056, 63-31058, 63-31060.

I did not receive one of these e-mails until I came into the office this morning. The instructions attached to the Preliminary Recommendations provide that the Notices of Error are due on Tuesday, November 29 - six days from today. My client has been out of town for several days, and the Thanksgiving holiday is tomorrow - I plan on leaving my office this afternoon at 2:00 to travel out of town, and will not be back until Monday. I do not know my client's plans, but I know he has been extremely busy and was expecting to be so for some time.

Given all of these factors, together with the facts that I have many other pressing matters I must address over the next several business days and that I believe my client's situation to be similar to mine, it is simply unrealistic to expect the Terteling Company to respond to 14 Preliminary Recommendations within a six-day period with an intervening four-day holiday weekend. We will attempt to review and respond to the Preliminary Recommendations as soon as possible, but it is simply impossible for us to get to them as quickly as provided.

Please respond with an extended timeline. Thank you.

Charlie and Tom -

The Director's Report for Basin 63 Part 2 will be submitted to the SRBA Court the week of December 12. Internal IDWR deadlines in preparation for the Director's Report require that I have all of the supporting documentation for claims to be recommended in this Director's report by October 31, 2005.

Please submit all supporting documentation for the Terteling claims, including the amended claims, by October 31, 2005. If I do not have the information by that time, I will recommend the claims based on the information I have.

Dear Charlie,

There are several beneficial use claims in Basin 63 filed by The Terteling Co., Inc., Terteling Trust No. 8 and the T-7 LLC, for which I need additional information to recommend. I have enclosed a table that lists the information needed.

For these beneficial use claims to be recommended in the Basin 63, Part 2 Director's Report, I must have the information by Tuesday, September 6, 2005, at the latest.

Please call me if you have questions regarding this matter.

Re: Terteling Company and T-7, LLC water rights

Dear Mr. Westra:

This correspondence will notify you that my clients, the Terteling Company and T-7, LLC, have requested that I be designated as the attorney of record for all matters involving any water rights that they own. Such matters include SRBA claims filed by my clients, as well as any other water right proceedings in which they are currently involved. Please ensure that such changes are made to IDWR's records as are appropriate.

Thank you for your assistance, and please feel free to contact me with questions or concerns.

Sincerely,

Charles L. Honsinger

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor

MEMORANDUM TO CLAIM FILE

TO: CLAIM FILE NO. 63-31058, 31060
FROM: VICKY L MUSIC, WATER RESOURCE AGENT, IDWR / WESTERN REGION
SUBJECT: BASIS FOR RECOMMENDATIONS
DATE: 11/22/2005
CC:

These 2 beneficial use claims are for 5 acres at 6601 N Bogus Basin Rd. Joe's son, Steve, lives here. Both claims were filed in 1999.

Claim no. 63-31058 is for 5 acres of irrigation and stockwater from Stewart Creek and a spring. Priority date is claimed as 1910, but during meeting with claimant, Tom T, and his attorney, Charlie H, they understood that I would have to advance the priority date to 1938 based on a lack of evidence of priority other than the 1938 aerial that claimant provided. They also intend to file instream stockwater claims so direct me to delete the stockwater right from this claim.

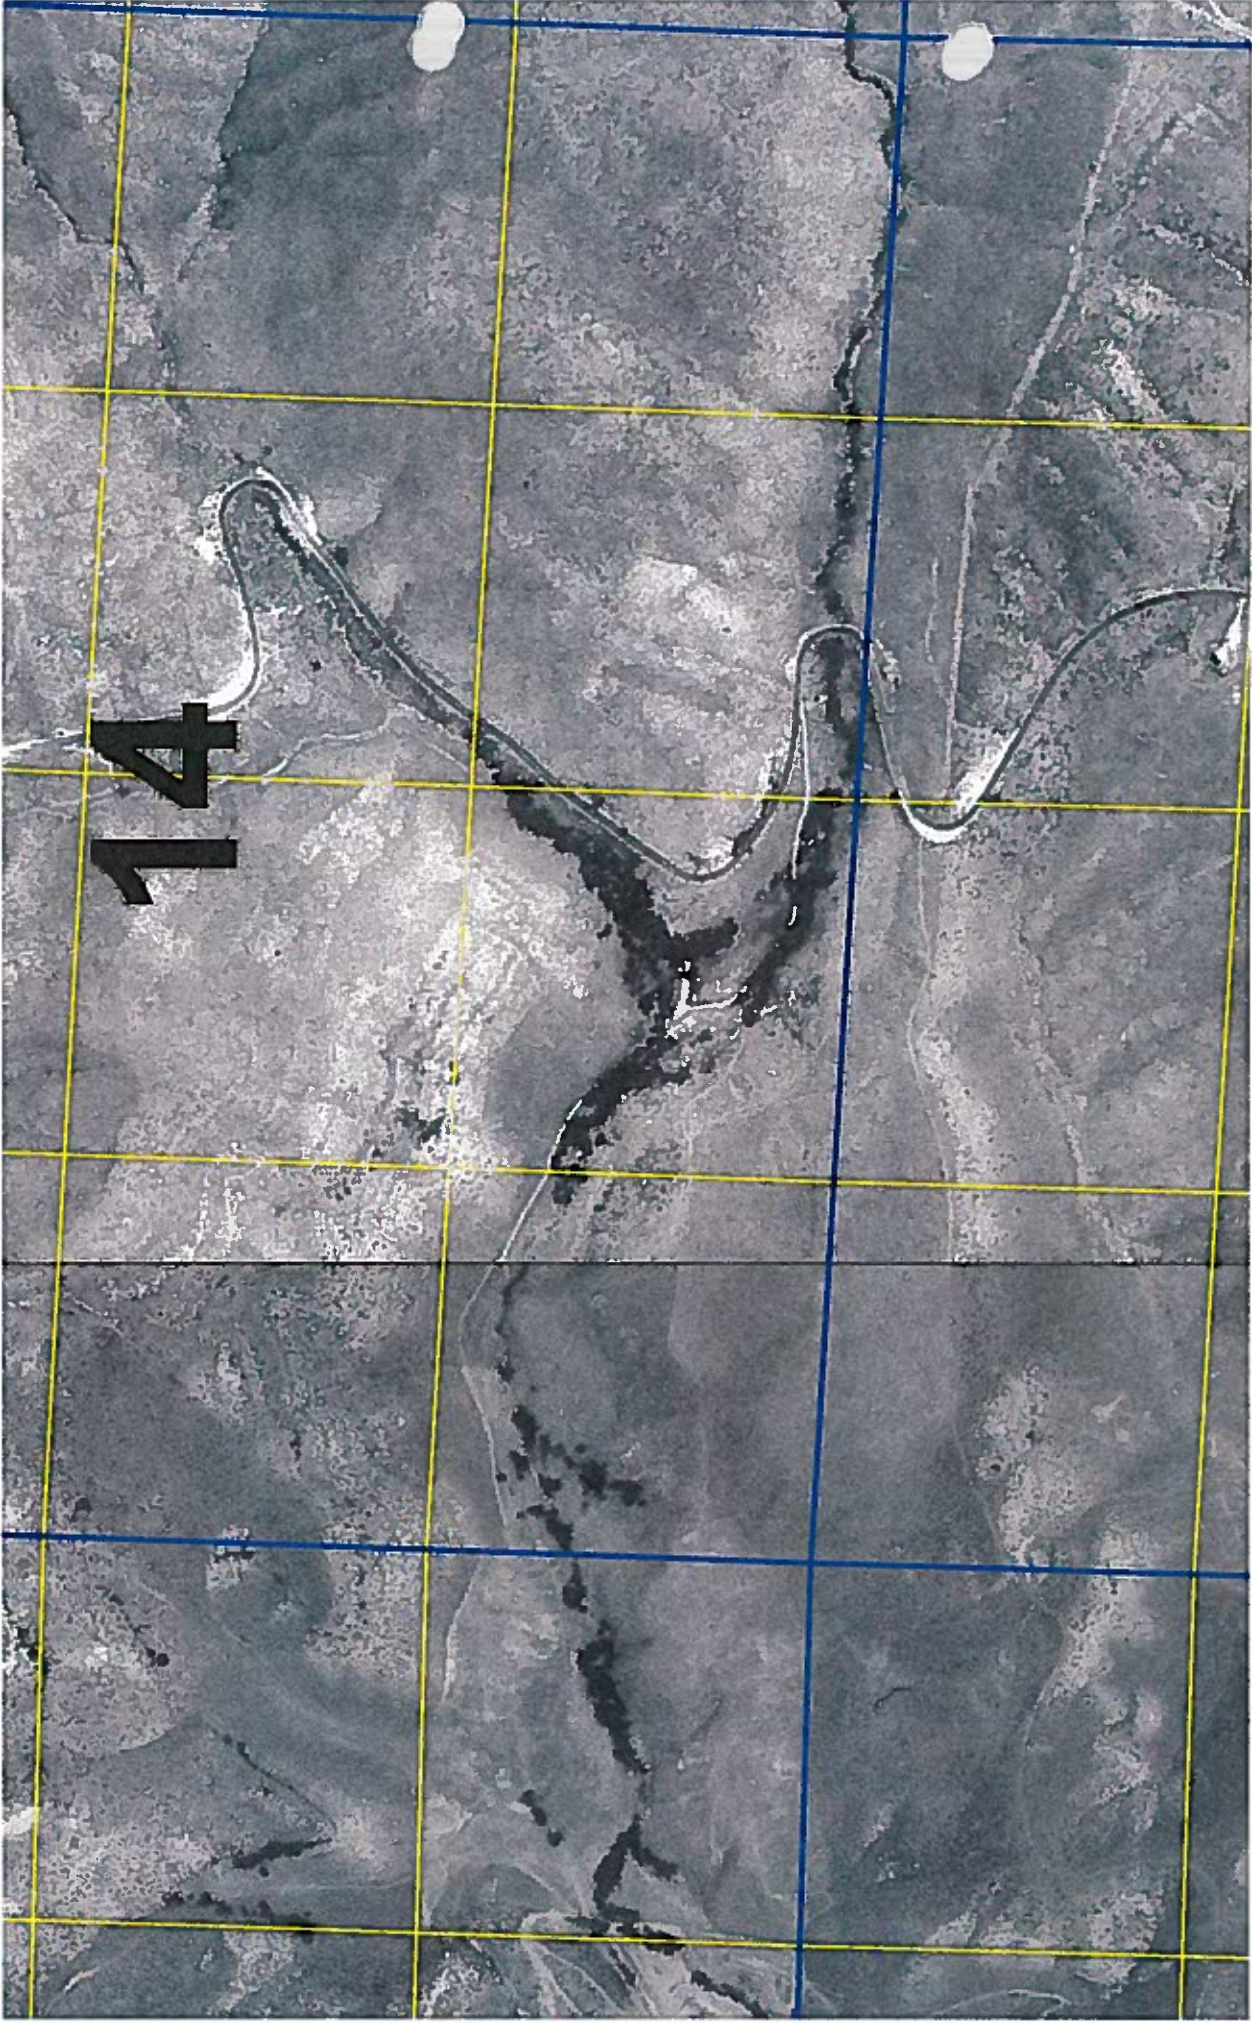

Claim no. 63-31060 is for irrigation of the same 5 acres irrigation and domestic and stockwater use from a well. Same 1910 priority date is claimed though the Ada Co Assessor tax lot info states the house was built in 1945. The well log of the well states that it was drilled in 1994 and is a new well, not a replacement.

The claims provide no information regarding the delivery system for the irrigation or stockwater. I requested this information 3 times, first in a letter dated August 8, 2005, regarding information needed for the many beneficial use claims, then I requested additional information regarding the system during a meeting with claimant and attorney on 9/15/2005. I requested the information again by e-mail on 10/18/2005. I received a reply from Charlie H on 10/25/05 that indicated that the system had been reengineered "farther down" Stewart Cr, but again, no specific information about the system or new pod was provided.

A review of aerials for the years 1987, 1992, 2000 and 2003 shows virtually no irrigation whatsoever on this parcel. If this land was irrigated, it was forfeited for nonuse from sometime prior to 1987 the mid 1990s. The claims were filed in 1999. Forfeiture is evident for at least 10 years before the claim was filed. Aerials from 2000 and 2003 show no evidence of resumption of use.

I will recommend 63-31058 as disallowed. Claims for instream stockwater were filed 10/17/2005 [63-32197 and 63-32198]. I will delete the irrigation use and recommend 63-31060 for domestic and stockwater. I will not advance the priority date because IDWR does not require proof of priority for domestic and stockwater. Aerial Review

5 acres not irv in 1987 NAAPP

5 ac - doesn't appear irv in 1995 aerial,
aerial not very clear

5 ac not irv in 2000, 2003 aerials.
appears that small area around house
may be.

All property in 2003 appears to be
natural vegetation. no trace of 5 acres
being historically irrigated -
