HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

Subcase 63-31071

Case No. 39576

NOTICE OF INTENT TO CORRECT
CLERICAL ERROR AND ISSUE AMENDED
PARTIAL DECREE

On December 16, 2005 the *Director's Report (Idaho Department of Water Resources, Director's Report, Basin 63, Part II)* was filed and included a recommendation for the above-captioned water right claim. No objections were filed to the director's recommendation. Prior to the hearing held on the uncontested rights for Basin 63, the Court discovered a clerical error in the recommendation; to wit: the number of acres was missing under the irrigation Place of Use element. The Court withheld issuance of the partial decree. On July 19, 2007, the Court received correspondence from the Idaho Department of Water Resources confirming the clerical error in the *Director's Report* and included the correct acreage breakdown, with a total designation of thirty (30) acres.

Therefore, it is the intent of the Court to issue a *Partial Decree* for this water right consistent with the attached draft *Partial Decree*. If any party shall have an objection to the intended changes, they may submit any objections to the Court and a hearing will then be held on the matter. The deadline for receipt of such objections is August 28, 2007. However, if there are no objections, a *Partial Decree* will be issued.

RE: SRBA Claim No. 63-31071

Dear Mr. Leasure,

Enclosed here for your files is a revised Preliminary Recommendation based on the Amended Notice of Claim recently filed for the SRBA claim no. referenced above. I have also included a couple of maps. One is a standard layout that we include to illustrate the place of use and point(s) of diversion for irrigation claims and claims for uses other than small domestic and stockwater, superimposed on a 1987 aerial photo. The second map is a 2003 aerial photo showing, in addition to the place of use and diversions, the tax lots that comprise the place of use of this claim.

Please call if you have questions regarding these enclosures.

Sincerely,

Mike -

Per our previous conversations about wildlife, attached are a few pages from an SRBA ruling regarding wildlife uses. The information on page 10 is the most pertinent. The bottom line is that the standard and proof required for a wildlife use is very high and cannot be incidental to another use. Call if you have questions.

From: Dean Briggs

Re: Deer valley Pond Calculations

Michael:

I dropped off the revised pond sheet with base overall dimension on the plan. I understand the Idaho Department of Water Resources is requesting the methodology we used in determining the area and volume of the ponds. Following is the methodology BEI used in calculating the pond information.

The basis field information we had in determining the pond information is the perimeter of the ponds from the Hubble Property Survey completed in 2000 and our verification of that perimeter in 2005 and a couple of cross-sections completed by our crews in 2005 of each pond. Based on this information we calculated an average depth over the surveyed area of the pond.

If there are any questions, please let us know.

Thank you,

Dean

Dear Ms. Music

As a further clarification regarding the stockwater ponds in Pierce Gulch, they were not only used for the watering of livestock and irrigation for the hay and alfalfa fields but also recreationally for fishing. In the early 1960's my father stocked them with bass and took me fishing there quite often. He also invited nearby neighbors to fish in the ponds and picnics were sometimes held at the main pond for family and friends.

My parents, Joe and Lillian Barnes, owned all of the property now owned by H. Larry Leasure in Pierce Gulch. I am writing for the purpose of clarifying the historic uses of the well claimed by Mr. Leasure.

In the early 1960's, my father bought all of the property now owned by Mr. Leasure. At that time the property was a working ranch/farm with horses, cattle, and crops. All the land that Mr. Leasure owns (182 acres) was used to raise crops and livestock (see attached aerial photo from May 27, 1963).

It was around this same time (early 1960's) that my father built a large house and swimming pool and ceased raising livestock on a small portion of the property. The farming and raising of livestock continued on the Leasure parcels well into the 1980's and to this day horses still run on the Leasure parcel.

The main well and spring was always used to irrigate the Leasure parcel by way of a series of man made irrigation ponds all located on the Leasure parcels by way of a series of man made irrigation ponds all located on the Leasure parcel.

Dear Vicky:

As a follow up to my letter dated September 22, 2004 and as further clarification at the time my father purchased the ranch now owned by Mr. Leasure I recall my parents talking about the past uses of the property as a working ranch and mentioning that it was originally constructed as a working ranch in the 1930's. At that time the water was used for irrigation and stock watering.

Michael -

Per our conversation this morning, attached is a scanned copy of the original notice of claim filed by Mr. Leasure in 1999 regarding the claim referenced above. It should be very helpful when filling out the amended claim.

The notice of error (NOE) deadline is today. The purpose of the NOE time period is to inform IDWR whether you agree with or desire changes to the preliminary recommendation so that any changes can be made prior to the recommendation being made to the SRBA Court.

Due to the conversations I have had with you and Mr. Leasure about the prelim recommendation and the amended claim you intend to file, you have provide me notice of error, and do not have to submit the NOE form today. Please submit the amended claim by the end of the month and, of course, call me if you have additional questions.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-31071

Dear Claimant(s),

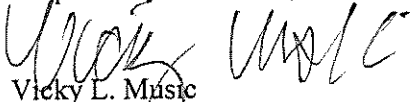

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of your priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by September 24, 2004. Additionally, please verify or correct the place of use and point of diversion of this right and return it to me with your evidence of priority. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Respectfully Submitted,

Vicky L. Music
Water Resource Agent
