Remarks:

Comments:

1. dnelson 9/21/2006 Claim Review
Comment: This claim is a beneficial use claim. The main issue with this claim was whether or not this use was constructed in 1930 with wildlife use in mind. Claim 63-21129 was filed for all of the stockwater uses. In order to maintain water in this facility when the stockwater were not in the pasture, the owner had to file a right for wildlife use. The owner claims that the water was maintained in this instance for wild horses, and later was used for upland game birds and ducks. This claim will be recommended as claimed.

The purpose of use was only claimed as wildlife, but this is basically the same use as water right 63-21129. The claim was filed for 0.6 afa, but was recorded in the department database as 0.6 cfs. This should be corrected. The use should be changed to wildlife storage, and wildlife from storage for a total of 0.6 afa and no diversion rate.

Dear Mr. Nelson:

RE A-63-31091 (Pond @ Mud Lake)

If one looks on a map this area is called Mud Lake. Historically wild horse watered here. Our operation watered our sheep and then cattle and we fenced out stray livestock to be certain there was a longer season of water for wildlife. We have had livestock in the area (since the 1920's). This was the only source of water for miles.

There has not been water in this pond for several years, but we leave water in our troughs licensed under right 63-21127 to replace the water historically in the pond.

Sincerely,

Brad Little

Dave,

I willing to extend the time to provide proof of priority for the Little Land Livestock adjudication claims until June 9,2006. I am not sure if I can extended it any further than that date, but if you need additional time I am willing to give you as much time as possible.

Thank you for correspondence, and I look forward to hearing from you on these claims.

Dan,

Your letter of May 2, 2006 regarding evidence of priority for SRBA claims 63-21120, 63-21123, 63-21127, 63-31090 and 63-31091 included a deadline of May 26, 2996 to provide the requested information. We are in the process of researching for the necessary evidence of priority but do not have the information complete. I know you are under a short deadline but ask that we have until June 9 to complete our research and get the information to you.

Thanks for your consideration Dan. Please let me know if you have any questions or if the additional time is not possible.

RE: EVIDENCE OF PRIORITY
Snake River Basin Adjudication Claim No(s): A63-21120, A63-21123, A63-21127, A63-31090, and A63-31091

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated printout of the claim(s) for your reference only, it is not necessary to return this printout. You indicated, when this claim was filed, that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water.

Water rights of this type are established by historical beneficial use of the water, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources, since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, I will need some additional information on a couple of the rights to ensure they are recommended correctly. Could you please supply the following:

63-31090 – wildlife use from a manmade pond – We need evidence that the pond associated with this right was built with the intention to supply water for both livestock under water right 63-21123 and wildlife use under this right. We may not be able to allow this water right, if you cannot show that the intent at the time the pond was constructed was for both purposes.

63-31091 – wildlife use from a natural pond. We need evidence that the pond associated with this right was enhanced or improved in some way to provide additional water for wildlife purposes. Our office generally doesn't allow a wildlife use on a natural waterway unless it has been enhanced to provide better conditions for the wildlife using it.

The information requested above on water rights 63-31090 and 63-31091 and the required evidence supporting the priority date(s) requested on all of the water rights referred to in this letter needs to be returned to me by May 26, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

If you have any questions or concerns, please contact me at the above address.

Respectfully,

Daniel A. Nelson
