IDWR / NORTH

I saw irrigation
in 1970 in the
ave - however, the
irrigation has still
been done in the ave
below the house
smaller ~~change~~ field.

I Remember in the '60's or maybe before
a power line to the creek and a pump for
irrigating. In the 1970's the owner of this
land sent the whole creek out into the field
I complained to the water resources Dept. They
told me his ~~right~~ water right allows him to use
the whole creek John Matheson 7-30-15
