RE: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 94-8771

Dear Mr. and Mrs. Allen:

Thank you for meeting with me in Kellogg on August 12, 2015. I have reviewed Section 42-111 of Idaho Code and Idaho Department of Water Resources (IDWR) guidance memos with respect to the CSRBA Notice of Claim to a Water Right referenced above. I have determined that the upper limit for the number of gallons of water per day allowed under this right can be changed from 2,500 gallons to 13,000 gallons if the purpose of use condition is also changed as shown below.

In order to raise the gallon per day limit, the condition on the recommendation under the Purpose of Use must be changed to describe the domestic use as a "non-commercial campground with four recreational vehicle hookups" instead of four homes. I will not make any changes to the recommendation until you confirm that you would like to see that condition modified in this manner. You can use the Notice of Error reply to indicate you would like to have the description of the domestic use changed.

I have enclosed a copy of the draft revised recommendation for Claim No. 94-8771 with the changes underlined. You will of course need you to complete and return the change of ownership form you received at the meeting before IDWR can remove Dianne and Timothy as owners.

If you have any questions or need additional clarification, please contact me by phone, (208) 287-4917, or by email: Carter.Fritschle@idwr.idaho.gov

Sincerely,

A handwritten signature in blue ink that reads "Carter Fritschle". The signature is fluid and cursive, with the first name "Carter" and last name "Fritschle" clearly legible.

Carter Fritschle
Adjudication Section Manager
