☒ This water Right Should Not Exist

☐ This water right was not recommended, but should be recommended with the elements described above.

**E: Respondents Recommendation:**

**This water right should be decreed as recommended by the IDWR Director on the following grounds: In 1891 the Coeur d'Alene reservation was created by Congress, reserving the beds and the banks of submerged lands within the reservation. In 1906, Congress opened up the reservation under the Allotment and Homestead Acts and provided that the land, once patented, would be thereafter subject to the law of the State in which it was located. The U.S. reserved certain mineral and hydropower rights in regard to the subject lands. The U.S. did not reserve any other littoral or riparian rights in regard to the subject lands which are ordinarily attendant to waterfront property, including the right to access water, to wharfage, or to use the adjacent water. These rights are therefore appurtenant to and including with those waterfront lands sold by the U.S and are subject only to State law regulation as provided by the Acts of Congress enabling the alienation of those lands.**
