Subject: Request For Assistance

Allen: This morning I got a call from a woman in California who had some questions about some problems she said she is having with the Big Wood Canal Company and Lee Peterson, the District 37 watermaster.

Her name is Roberta Sharp and, apparently, she also talked to you guys last summer sometime as well. It involves rights 37-00245, 46 & 47 on the Big Wood owned by her parents, a Paul Bancroft.

She claims the watermaster refused to deliver water under the rights saying some kind of records were destroyed in the fire they had a while back. She says Peterson's wife told her they won't deliver water unless we send a letter telling the watermaster to do so. She also says the canal company is refusing to provide record information she needs to prove the entitlement. I have the feeling there may be a forfeiture of rights involved here since she didn't seem to really know the last time her parents were delivered water under the three rights.

I would appreciate it if you could call her and help her if you can. You may already know all about this but somehow her call got routed to me. The watermaster's wife gave her Keith's, Norm's and Glen's name which is why she called her. She says she needs to know whether we are supposed to get involved or whether it is a civil matter or what the deal is.

She lives in California. Her number is (909) 2166. I told her I or someone else would call her back this afternoon.

Thanks for helping out.

COMMUNICATION DOCUMENTATION

File No. A37-00245 thru
A37-00247

This form is to be used to document public record information requests regarding any SRBA claim or other water right. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request.

IDWR Employee/Agent Allen Merritt Date September 20, 1994

Contact person(s) Roberta Sharp (909) 599-2166 & Lee Peterson

Nature of Contact Pursuant to Memo from Dick Larsen

Substance of Communication:

After receiving Larsen's memo on 9/19/94 I phoned Peterson to get an idea about what the problem was. Lee indicated that Bancroft (Mrs. Sharp's father) was a decree right holder below Magic Reservoir with relatively late priority rights that have been cut off early this year. He indicated that by the time they got around to call for the water this year the priority was not good. Lee indicated that the Bancrofts thought that their water should be delivered from storage from Magic. He refused to do that this year. He indicated that Bancroft thought that storage was part of their decree but now with the help of Reid Newby they have found an old 1932 agreement between BWCC & Bancroft & others that allowed for storing the live flow rights in 1932 but that agreement ended Sept 1, 1932. At present he is not aware of continuation of this type of agreement and the BWCC has indicated they are not aware of such an agreement. Lee indicated that he was in the process of writing Bancroft a letter informing them what he had found.

I then phoned Mrs. Sharp and discussed with her my conversation with Mr. Peterson. Mrs. Sharp did not seem to understand what type of water right her father had in that her belief is that the Frost decree and subsequent cases which she cited: Arkoosh vs Big Wood Canal in 1930 (Judgement Book #6 Case 2554 pp 104, 192 & 197. and also Big Wood Canal vs Chapman in 1924 in Judgement Book #5 Case 511 pp 527 she believes gives them the storage right. She thinks the BWCC is now withholding something and not cooperating and that the watermaster is also being uncooperative. I expressed my opinion that the watermaster is making every effort to find an agreement which describes a continuation of the storage agreement.

of 1932 and that normally agreements benefit all parties so I couldn't see why BWCC would not come forward if an agreement exists. She asked advice but I told her I could not give her legal advice and that it appears to be a civil matter between the BWCC and the Bancroft family about any such private agreement. I told her I would review the situations she gave to see if they pertained but I told her that my feeling was that they had natural flow rights and unless an agreement modified this their water should be administered as such by the watermaster.

Dear Mr. Stepanek:

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership. Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

☒ **Evidence of Water Right Ownership:** copy of Warranty Deed, Title Policy, Contract of Sale, or other legal document indicating your ownership of the property and/or water rights in question

☒ **Legal Description of Property**

Because the Department cannot process the ownership change without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information within 30 days we will return your notice and all attachments and your notice will not be processed.

Your ownership change request included water rights 37-245, 37-246 and 37-247. Our Adjudication Section will process those three water rights. They will contact you separately in regards to the support data they require.

Please note that water right owners are required to report any change in water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount.
