PURSUANT TO APPROVED TRANSFER NO. 4240:

1. THIS RIGHT WHEN COMBINED WITH ALL OTHER RIGHTS SHALL PROVIDE NO MORE THAN 4.0 AFA PER ACRE FOR THE LANDS ABOVE.
2. APPROVAL OF THIS TRANSFER IN NO WAY GRANTS ANY RIGHT-OF-WAY OR EASEMENT FOR USE OF A DELIVERY SYSTEM OWNED BY PERSON(S) OTHER THAN THE RIGHT OWNER.
3. THE CHANGE AUTHORIZED BY THIS TRANSFER SHALL BE ACCOMPLISHED WITHIN ONE (1) YEAR OF THE DATE OF THIS APPROVAL.
4. APPROVAL OF THIS TRANSFER DOES NOT PRECLUDE THE OPPORTUNITY FOR REVIEW OF THE VALIDITY OF THE WATER RIGHT(S) IN THE ONGOING SNAKE RIVER BASIN ADJUDICATION.
5. FAILURE TO COMPLY WITH THE CONDITIONS OF THIS TRANSFER IS CAUSE FOR THE DIRECTOR TO ISSUE AN ORDER TO SHOW CAUSE WHY THE APPROVAL OF THE TRANSFER SHOULD NOT BE RESCINDED.
6. POINT OF INJECTION IS FROM THE JIM BYRNS SLOUGH INTO THE LITTLE WOOD RIVER.
7. USE OF WATER UNDER THIS RIGHT SHALL BE REGULATED BY THE WATERMASTER(S) OF STATE WATER DISTRICT NO. 37, BIG WOOD RIVER, AND WATER DISTRICT NO. 37M, LITTLE WOOD RIVER TO IRRIGATE 75,494 ACRES.
8. A MEASURING DEVICE AND LOCKABLE CONTROLLING WORKS OF A TYPE APPROVED BY THIS DEPARTMENT SHALL BE MAINTAINED AT THE POINT OF REDIVERSION FROM LITTLE WOOD RIVER IN A MANNER THAT WILL PROVIDE THE WATERMASTER SUITABLE CONTROL.

ALSO PURSUANT TO FINAL ORDER OF TRANSFER NO. 4240:

1. THE RIGHT HOLDERS ARE ENTITLED TO RECEIVE FROM THE BIG WOOD CANAL COMPANY ONLY THE PROPORTIONATE SHARE OF WATER WHICH THE COMPANY IS ENTITLED TO RECEIVE FROM AMERICAN FALLS RESERVOIR DISTRICT NO. 2 THROUGH THE GOODING CANAL.

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

RECEIVED

OCT 04 1994

Department of Water Resources
Southern Region Office

IN THE MATTER OF APPLICATION FOR TRANSFER REQUESTED BY JAMES R. GRANT AND DEL ROY HANSON

CERTIFICATE APPROVING TRANSFER

This matter having come before the Idaho Department of Water Resources (department) in the form of a request for transfer as authorized in Section 42-2504, Idaho Code, the Director of the department makes the following Findings of Fact, Conclusions of Law, Analysis and Order:

FINDINGS OF FACT

1. On November 2, 1992, James R. Grant and Del Roy Hanson (applicants) by and through their attorney asked the department to approve two (2) transfers to change the place of use of one hundred forty (140) shares of water of the Big Wood Canal Company (BWCC) pursuant to Section 42-2504, Idaho Code. James R. Grant has requested the transfer of one hundred (100) shares and Del Roy Hanson has requested the transfer of forty (40) shares. Each share of stock entitles the owner to receive 0.0125 cubic feet per second (cfs) of water available to the canal company. The total water rights proposed to be transferred as represented by the 140 shares of stock is 1.75 cfs.

37-00867

2. The applicants propose to remove the shares of BWCC water from lots 2, 3, part of lots 4 & 5, SW1/4NE1/4, SE1/4NW1/4, Section 6, T6S, R16E, B.M. (Greenhorn lands), temporarily transferred to Gary McCowan and leased to the applicants, and to move the water shares to the following lands:

i) Del Roy Hanson

Tract "B" (129 acres) in the W1/2 of Section 31, T9S, R21E, B.M.

ii) James Grant

Parcel No. 1.

Part of tract "D" in Sections 5 and 6; E1/2NE1/4, NE1/4NW1/4NE1/4 Section 7; NW1/4 Section 8; all in T9S, R20E, B.M.

Parcel No. 2.

Tract "E" in Sections 5 & 8, T9S, R20E, B.M.

Parcel No. 3.

S1/2S1/2SW1/4NE1/4, N1/2SE1/4 Section 7; NW1/4SW1/4, W1/2NE1/4SW1/4; W1/2E1/2NE1/4SW1/4 Section 8, T9S, R20E, B.M.

Parcel No. 4.

E1/2SE1/4NW1/4NE1/4, E1/2NE1/4SW1/4NE1/4 and NE1/4SE1/4SW1/4NE1/4 Section 7, T9S, R20E, B.M.

3. On October 1, 1992, the Board of Directors of the BWCC declined to approve the transfer of the stock as proposed by the applicants even though the applicants have been leasing and using the subject water on a year-to-year basis.

4. The BWCC and the American Falls Reservoir #2 (AFRD2) are two related water delivery organizations. BWCC is a Carey Act operating company which was in existence before the construction of American Falls dam. BWCC holds the Magic reservoir storage right together with a number of other natural flow rights. AFRD2 is an irrigation district which was established as a taxing entity to contract with the U.S. Bureau of Reclamation for space in American Falls reservoir.

5. American Falls water is diverted at Milner dam and is delivered through the Milner-Gooding canal. Water is commingled with both the Big and Little Wood Rivers for delivery to lands downstream from the points where the Milner-Gooding canal intersects the Big and Little Wood Rivers. Lands lying above the Milner-Gooding canal are also in the district and receive the benefit of American Falls water by exchange for stored water from Magic reservoir rather than by direct delivery. About 40,000 acres are involved in the exchange.

CONCLUSIONS OF LAW

1. Section 42-2501, Idaho Code, provides as follows:

> The owner of any lands to which a water right has been made appurtenant pursuant to the provisions or operation of the act of congress of the United States known as the Carey Act may transfer such water right, in whole or in part, to other land owned by him which can be served and irrigated by the same Carey Act irrigation system and may, by sale, or by lease for a period not exceeding one (1) year, transfer such water right or any portion thereof to another for use upon or in connection with any such other lands, in the manner or on the condition set forth in this chapter.

2. Section 42-2503, Idaho Code, provides as follows:

> Before the transfer of a water right shall take effect under this chapter a person interested therein must apply to the board of directors of the corporation operating such Carey Act irrigation system for consent to the making of the transfer, and if such consent is given a resolution showing the same and the extent or portion of the right transferred shall be adopted by said board and a copy thereof, with proper reference to the date of its passage, shall be incorporated in the instrument evidencing such transfer, and upon the recording of the instrument, as provided in section 42-2502, such transfer shall be complete.

3. Section 42-2504, Idaho Code, provides in pertinent part as follows:

> If the board of directors of the corporation operating such Carey Act systems shall refuse its consent to the transfer of such water right, a written application for permission to make the same, showing the description of the land from which and of the land to which it is proposed to transfer such water right and the amount of the water right to be so transferred and the reasons for such transfer, shall be presented to the director of the department of water resources who shall promptly make an investigation of the matter and determine whether and to what extent the canal system and the other water users thereunder shall be affected or prejudiced if such transfer is allowed.
>
> If said director of the department of water resources finds that such transfer of water right, in the manner and to the extent applied for, will not be prejudicial to said corporation or to the other water users under said irrigation system he shall issue his certificate approving the transfer ...

4. The proposed transfer of stock will not be prejudicial to the BWCC or to other water users under the irrigation system.

5. The department should issue a certificate of transfer with certain conditions approving the change in place of use of BWCC stock.

ANALYSIS

The Board of Directors of the BWCC do not oppose the proposed transfer of shares of stock but will not approve a lease for a period longer than one (1) year as provided in Section 42-2501, Idaho Code. The Board of Directors has agreed to approve the sale of its stock if the department issues a certificate approving the transfer.

ORDER

IT IS THEREFORE, hereby ORDERED that the request of the applicants proposing to change the place of use of 140 shares of the stock of the Big Wood Canal Company as described in the Findings of Fact and Conclusions of Law above, is hereby **APPROVED** subject to the following conditions:

1. The right holders are entitled to receive from the Big Wood Canal Company only the proportionate share of water which the company is entitled to receive from American Falls Reservoir District No. 2 through the Gooding Canal.

2. Approval of this transfer does not grant any right-of-way or easement for use of a delivery system owned by persons other than the share holder.

3. Approval of this transfer does not preclude the opportunity for review of the validity of the water right in the ongoing Snake River Basin Adjudication.

Signed this 16TH day of SEPTEMBER, 1994.

CONDITIONS/REMARKS:

1. This right when combined with all other rights shall provide no more than 4.0 afa per acre for the lands above.
2. Approval of this transfer in no way grants any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
3. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
4. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
5. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
6. Point of injection is from the Jim Byrns Slough into the Little Wood River.
7. Use of water under this right shall be regulated by the watermaster(s) of State Water District No. 37, Big Wood River, and Water District No. 37M, Little Wood River to irrigate 75,494 acres.
8. A measuring device and lockable controlling works of a type approved by this Department shall be maintained at the point of rediversion from Little Wood River in a manner that will provide the watermaster suitable control.

Dated this 24th day of January, 1994.

MEMORANDUM

DATE: 16-Sep-1993

FROM: Loren Holmes LH

TO: Big Wood Canal Co. Transfer file

SUBJECT: Processing of transfer

I discovered this transfer application in my hold basket. I was initially puzzled as to why a transfer was required to make this change in the company's method of delivery. This right is one of 130 water rights held by BWCC and delivered through its system. The BWCC delivery system incorporates parts of the Little Wood River and Big Wood River to convey commingled Magic storage with natural flows.

The capability exist to deliver water via the Richfield canal and Jim Byrns Slough to the Little Wood River upstream from the proposed new point of re-diversion on the Little Wood River.

The only apparent new feature in the transfer application is the proposed re-diversion on the Little Wood River for Gary Kissler, the stockholder.

When processing is complete, the transfer should clarify that the right is still held by BWCC, and the watermaster is making delivery to BWCC, not Kissler at this point.

reserved and intended to be retained for the use and benefit of the United States as a source of supply for the project.

(b) If suitable drainage or return flow water from any part of the project shall at any time be or become available at points where it can be used on lands within the District, the United States may supply such water as a part of the supply to which the lands in the District are entitled.

No Liability for Water Shortage or Interruptions

27. No liability shall accrue against the United States or the District or any of their officers, agents or employes for damage, direct or indirect, arising by reason of shortages in the quantity of water available through the project works or interruptions in water deliveries to lands in the District resulting from drouth, inaccuracy in distribution, hostile diversion, prior or superior claims, accident to or failure of facilities of the project works, whether or not attributable to negligence of officers, agents or employes of the United States or the District, or other causes of whatsoever kind. Nor shall the District's obligations to the United States under this contract be reduced by reason of such shortages or interruptions.

Lands Above Proposed Canal to Benefit Equally With Lands Below

28. (a) It is one of the objects of this contract to provide each irrigable acre of the old lands within the District, whether located above or below the main canal, with substantially the same benefits from American Falls storage and other sources available to the District, either directly or indirectly.

(b) To carry out this object, it is agreed that:

(1) The owners of old lands below the main canal who are entitled to water from the Big Wood or the Little Wood River or Magic Reservoir are deemed to agree that the water from those sources may be used on old lands above the main canal, and to accept in lieu of water from those sources, an equal amount of water from American Falls storage and other sources available to the District, all to the extent necessary to permit the old lands above the main canal to benefit equally, so far as possible, with the old lands below the canal in the water supply made available under this contract.

(2) Owners of old lands entitled to receive water from Magic Reservoir are deemed to agree that, for the purposes of the provisions of (1) of this subarticle, stored water remaining in Magic Reservoir at the end of any irrigation season shall be pooled with and treated as other water subsequently stored therein which is available for the ensuing irrigation season.

(3) Owners of old lands below the main canal are deemed to agree that, in the event extreme shortage in the water supply available from the Big Wood and the Little Wood rivers and Magic Reservoir makes it impossible for old lands above the main canal to receive substantially as

much water per irrigable acre as is received by the old lands below the main canal for any irrigation season, the old lands below the canal will not be entitled to the delivery of any water from those sources until the deficiency in the supply received by the old lands above the canal in that season has been offset in subsequent seasons, except during any period that there are waters available in the Big Wood and Little Wood rivers after Magic Reservoir is filled and the then current requirements of the old lands above the canal have been supplied.

(c) All landowners within the District who permit this contract to be executed by the District and confirmed as required under article 47, or who accept any of the benefits of this contract, shall be deemed to have consented and agreed to all the provisions of subarticle (b) of this article. In the event any such landowner refuses to comply with the provisions of that subarticle (b), he shall be denied every benefit accruing under this contract; and the District shall refuse to deliver water to any land of such landowner from the supply made available under this contract until such time as a valid enforceable agreement embodying the terms of subarticle (b) in a manner satisfactory to the Secretary has been entered into between such landowner and the District.

Contract to be Made With Big Wood Canal Company

Subject: Point of Diversion maps

Lynn,

I have attached 2 point of diversion maps for BWCC. One is for the Big Wood River rights the other for the Little Wood River rights. Basically, the BWR rights have every point in the system that I know about; and the LWR rights are a portion of all the ones on the BWR rights.

Note that the BWR rights have the Jim Byrnes injection into LWR, and injection of BWR into the Malad River with the Thorpe and Justice as rediversion points of Big Wood River water. Robertson ditch is NOT on the list and the Slough ditch IS on the list. Note that the LWR rights do NOT inject into the BWR, but DO inject into the Malad for rediversion into the Thorpe and Justice.

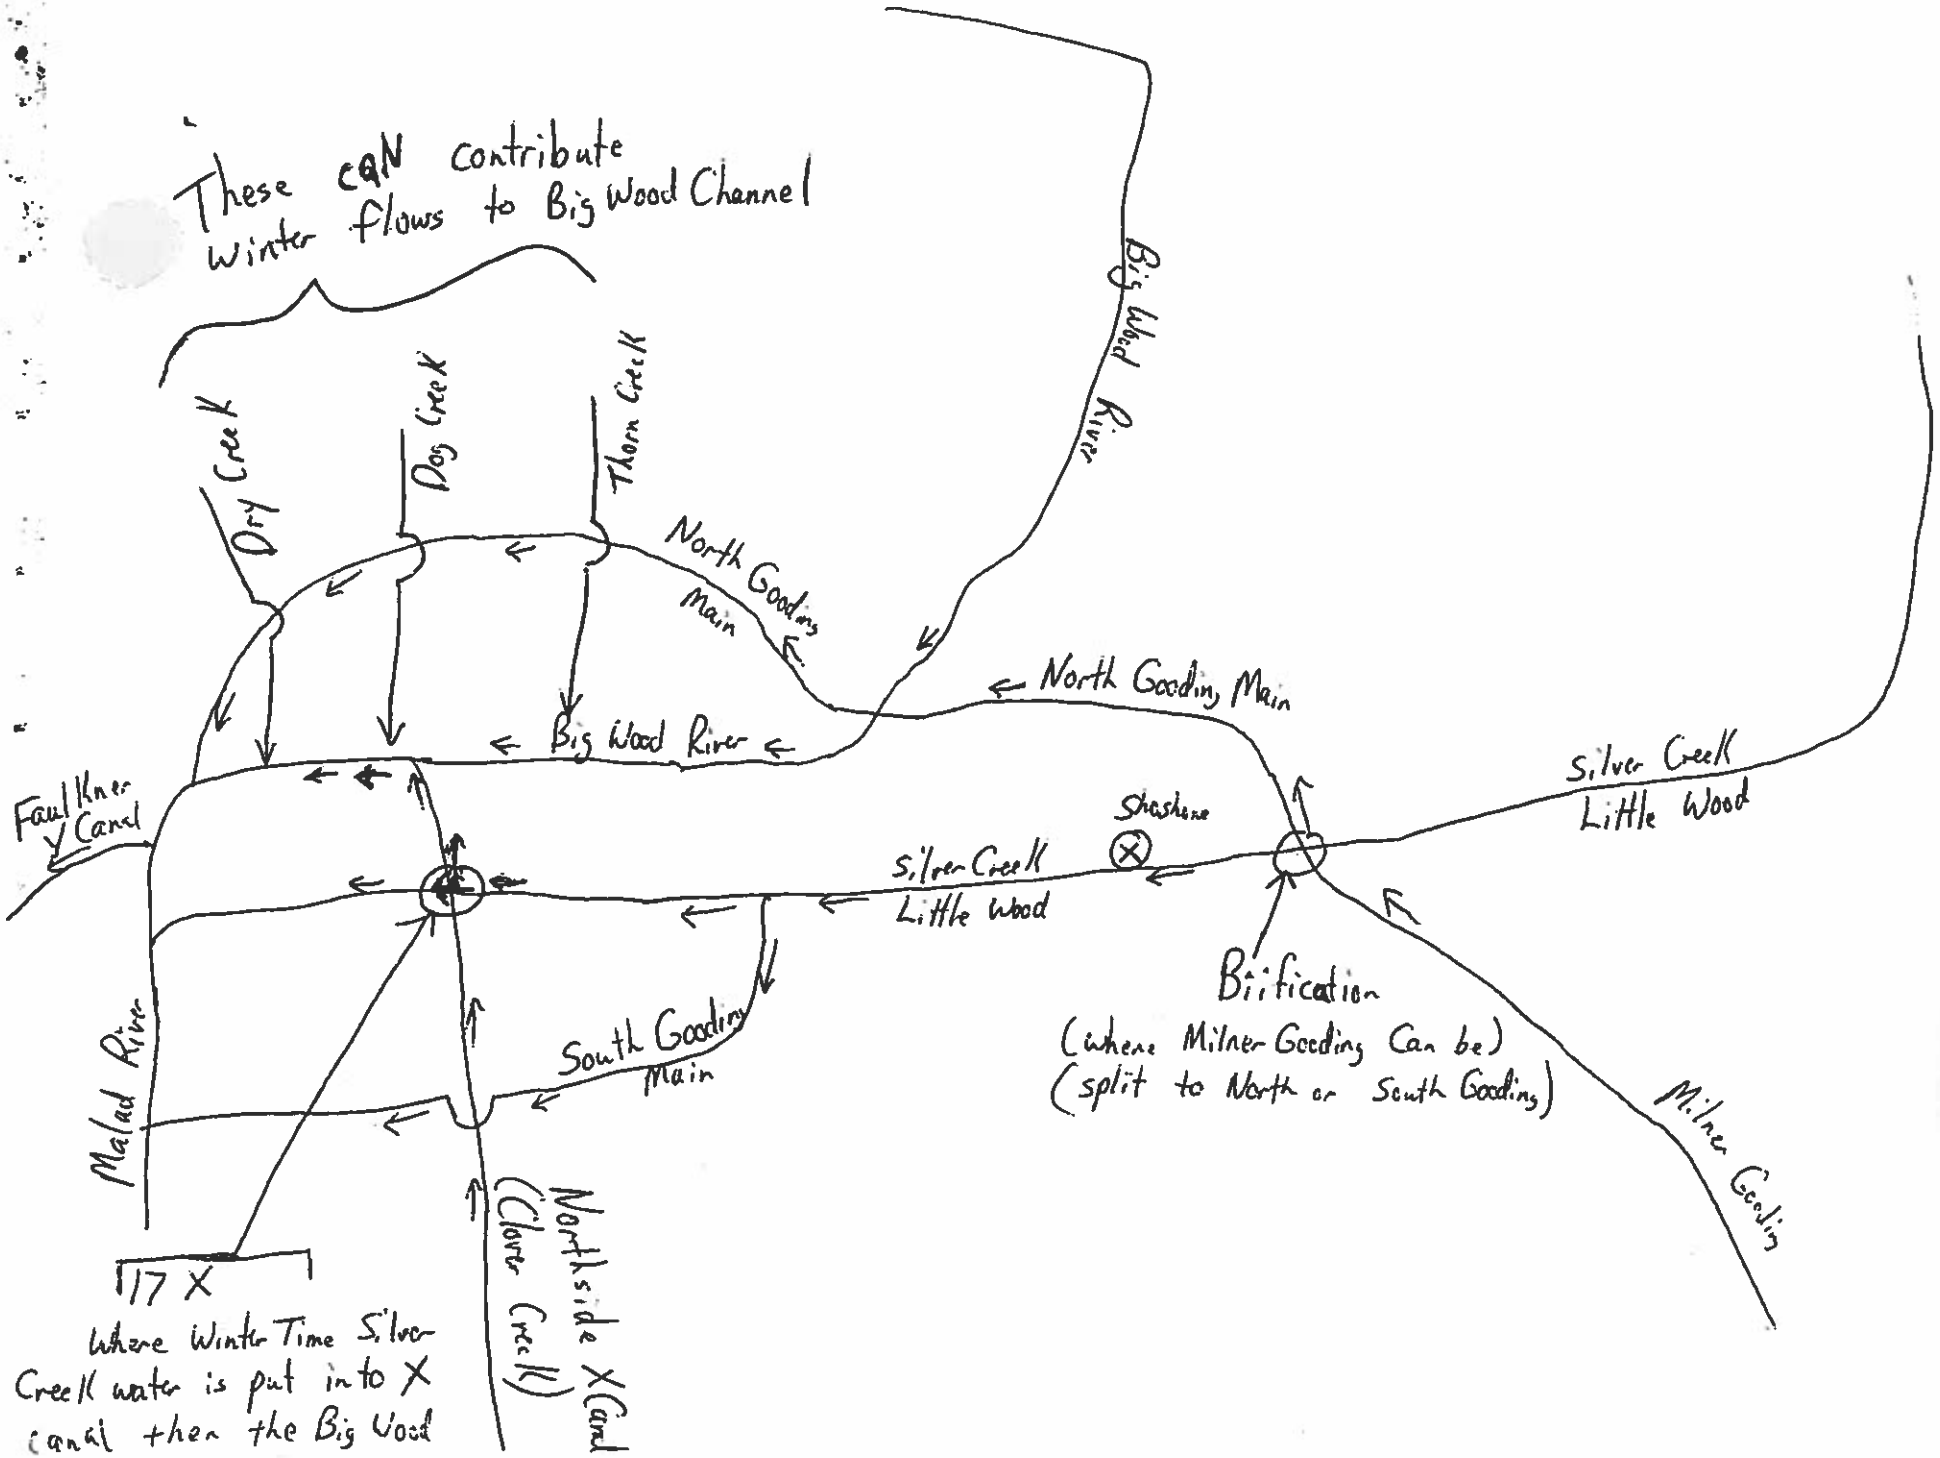

Hopefully this is the agreed to listing and I will be drafting recommendations for the SF-5, to be sent out by this coming Tuesday, based on it. However, modifications can be made as we proceed to final form.

Look them over as let me know what you're thinking. Thanks!

Doug

Subject: Robertson Ditch

Doug,
We need to include the Robertson Ditch in our Big Wood diversions.

We irrigate 74,594.83 acres of land with Big Wood Water. This covers all lands within the system except the Hunt area and the straight American Falls & new lands. This is if there isn't Little Wood river water available.

We can irrigate 24,350.58 acres with water from Little Wood river if no Big Wood water is available.

We irrigate 38,052.77 acres of the Big Wood system with water from American Falls as a suppliment and have since the 1928 contract was entered. This leaves 24,350.09 acres of lands watered with strictly American Falls Water which is listed as new lands and river lands. If you total the 38,052.77 and the 24,350.09 you have the total amount of acreage water from American Falls of 62,402.86 acres. Lynn

Subject: BWCC river diversions

Doug
We want to add Magic as a point of diversion.

The second diversion at the Richfield Diversion is a regulation diversion from the canal back to the river to feed the Lincoln By pass Canal

The CottonWood Canal Diversion was discontinued prior to 1987. I think sometime in the early 1920's.

Lincoln Bypass diversion looks okay

The injection of Big Wood water via Jim Byrnes slough and the Dietrich Main Big & Little Wood rights point of diversion looks okay.

The weaver's land diversion is a private diversion.

The cottonwood ditch return to river looks okay.

The North Shoshone Canal Diversion looks okay

Union Ditch diversion is okay.

The Poorman diversion has been combined with the union ditch. The first 3/4 of a mile has been comibned with the Union and the poorman now feeds off the Union ditch.

The South Gooding Main diversion is located in township 5s, Range 16E, sec 32 NENW of Little Wood.

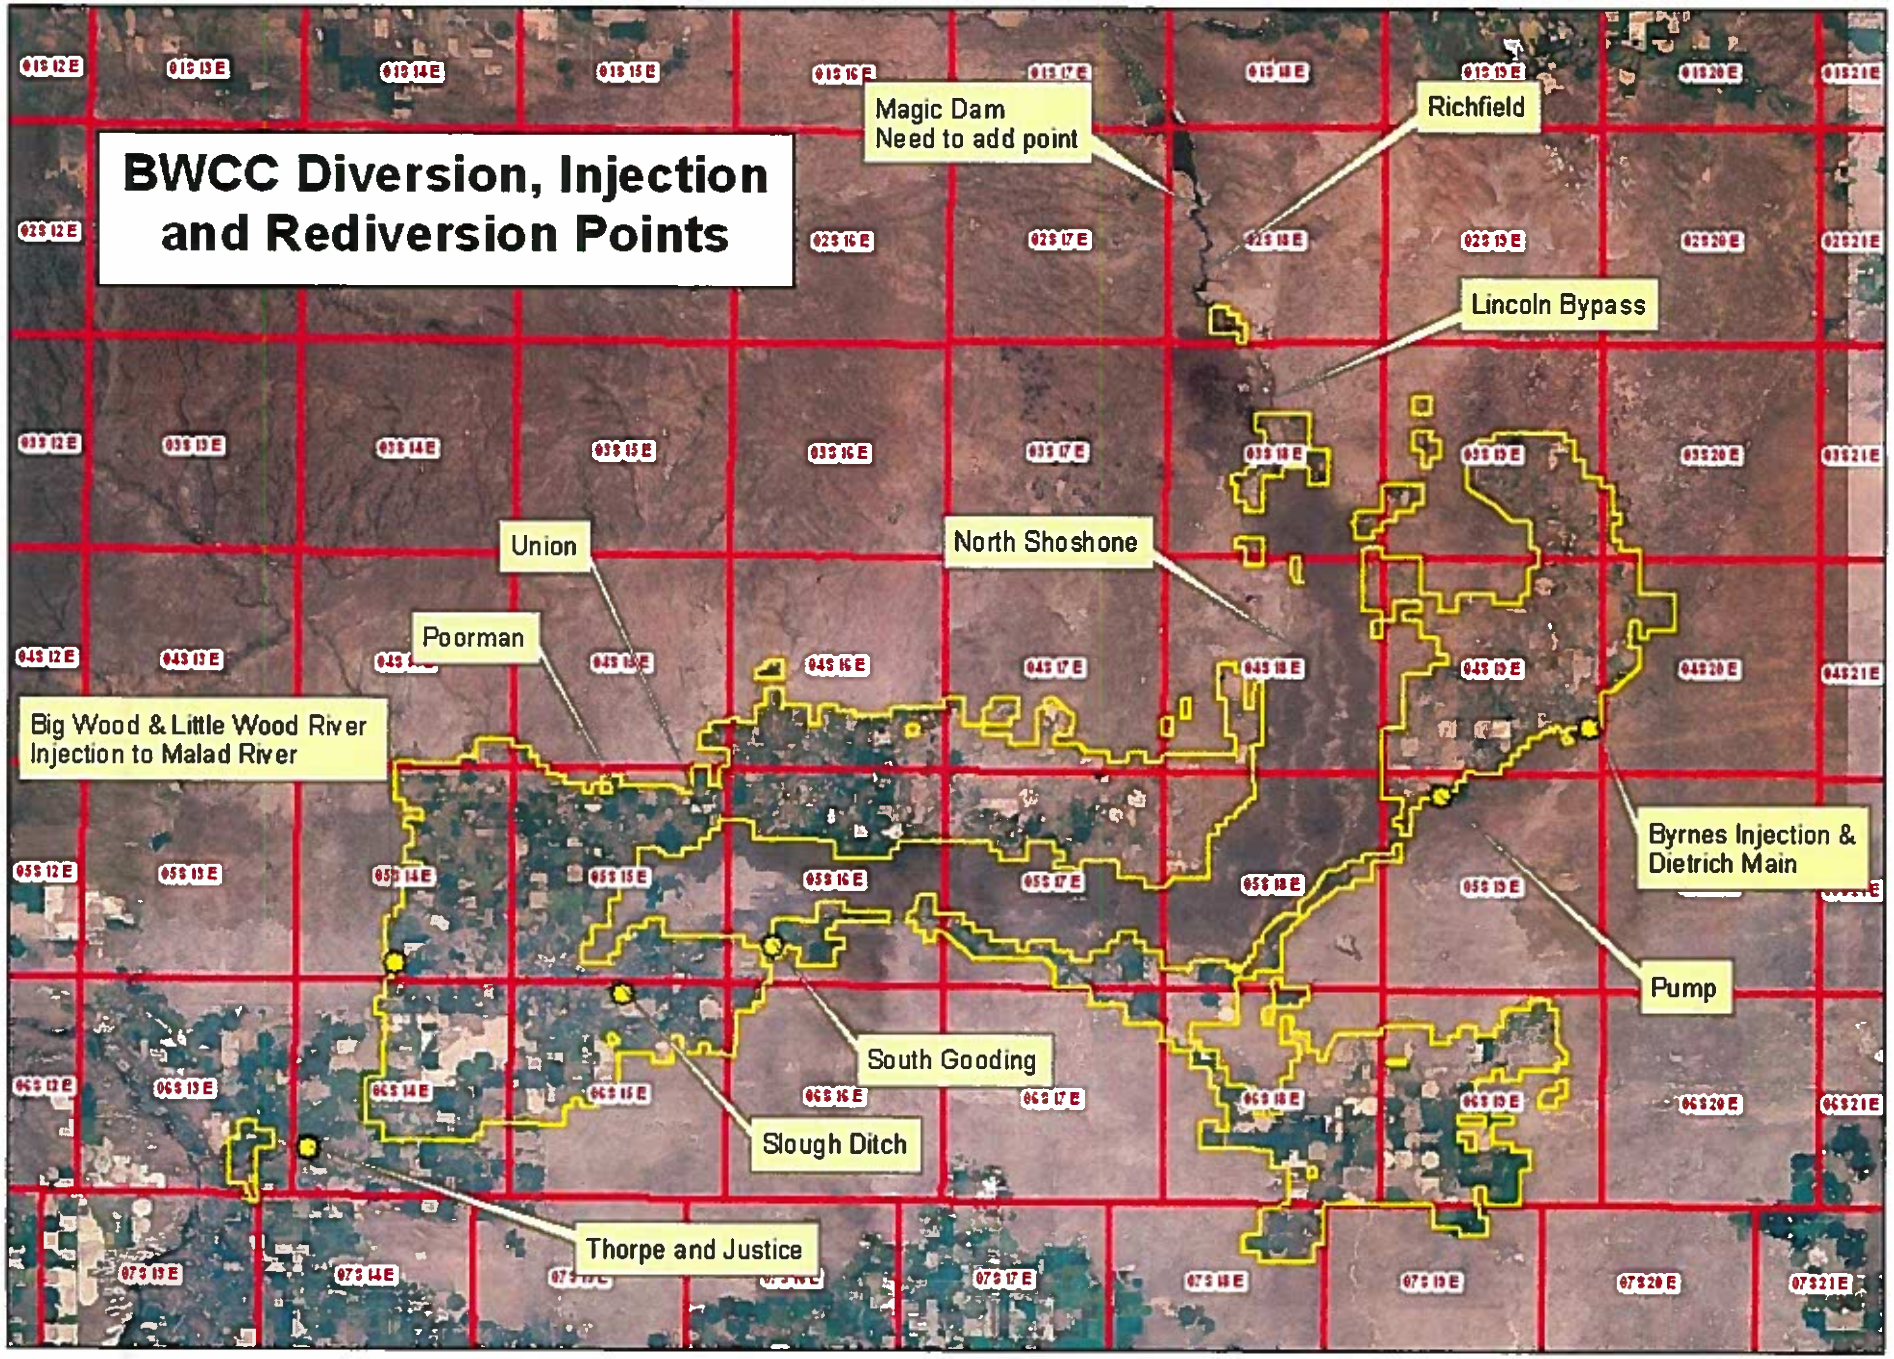

We need to add the Slough Ditch diversion located in Township 6s, Range 15E, Sec 3 SWNW off Little Wood.

We need to add the Carpenter Lateral located in Township 5s, Range 14E, Sec 35 SENE off Little Wood.

We need to add the Robertson Ditch located in Township 5s, Range 16E, Sec 7 SWNW

Let me know what else we need to work on . Thanks Lynn

Re: Big Wood Filings on Little Wood River

Doug,

I am sending over information on the various rights that were objected in the Adjudication process. I reviewed the rights back against the Frost Decree and did find several mistakes that I hope I have corrected.

Please review the information and we can set up an appointment to meet and make sure everything is set up correctly.

Sincerely,

Lynn Harmon

Conditions of Approval:

1. T09 Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
2. Point of injection is from the Jim Byrns Slough into the Little Wood River.
   A measuring device and lockable controlling works of a type approved by this Department shall be maintained at the point of rediversion from Little Wood River in a manner that will provide the watermaster suitable control.
   Use of water under this right shall be regulated by the watermaster(s) of State Water District No. 37, Big Wood River, and Water District No. 37M, Little Wood River to irrigate 75,494 acres.
3. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
4. R26 This right when combined with all other rights shall provide no more than 4.0 afa per acre for irrigation of the lands above.
5. T04 Approval of this transfer in no way grants any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
6. T07 The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

1. SKAGGS 1/21/1994 ADDITIONAL INFORMATION FROM THE DECREE
Comment: Points of diversion have been identified in the Findings of Facts as Magic Dam, Richfield and North Gooding diversion dams, Dietrich and South Gooding diversion dams located in Blaine, Lincoln and Gooding Counties. Decree describes 2,160 forty-acre tracts, 86,400 acres, in which 75,494 acres were reclaimed and put to beneficial use. TRANSFER NO. 4240 Transfer No. 4240 was originally filed showing a split of a small portion of Right No. 37-00867 with a separate point of diversion. The transfer was processed reflecting a new diversion point to Richfield Canal, and an injection and rediversion point on the Little Wood River under Right No. 37-00867, reflecting no splits. A measuring device was not required at the point of diversion or the point of injection into the Little Wood River because the Watermaster confirmed that devices are already in place.

Regarding: | Customer:

Claims of Big Wood Canal Co. | Lynn Harmon, Mgr

Mr. Harmon came into the office and met with Allen Merritt, Doug Jones and myself on May 6th. He was concerned about there being no storage right for Magic Reservoir filed in the SRBA. A cursory review of the Adjudication claims and of the water rights confirmed that there were no existing claims or water rights for irrigation storage at Magic, with the exception of decreed right 37-895 for 18 cfs that was not claimed in the Adjudication. Allen Merritt pointed out that the licensing field exam for 37-2116, which was the partial basis of decreed right 37-870, specifically mentions the reservoir and that there probably should have been some storage right associated with the first license issued, 37-2033 priority 1905.

The history of the reservoir was discussed briefly. According to Mr. Harmon, the reservoir originally had a capacity of 172,000 AF and was modified several years later to increase the capacity to it's current 191,500 AF. He thought that he heard 1910 as the year it was modified. It was decided by the claimant that an amendment to claim 37-867 (original basis 37-2033 priority 1905) to include irrigation storage and irrigation from storage in the amount of 172,000 would be appropriate. Options for claiming the balance of 19,500 AF were addressed. They included the filing of a new beneficial use claim with a 1910 priority date, or amending claim 37-870 (priority 1920) to add irrigation storage and irrigation from storage. It was pointed out to Mr. Harmon that he should probably discuss the options with the BWCC board and possibly their legal counsel, and that in his discussion with the BWCC board, he should point out that the claimed priority date of 1908 for claim 37-870 would most probably be modified to 1920 in the SRBA to agree with the 1925 decree findings in BWCC v Chapman. It was suggested that he find some records to confirm the year the capacity of the reservoir was increased.

Mr. Harmon also inquired as to whether they had stock water use covered in the SRBA. There was some inconclusive discussion as to whether the remarks about non-irrigation use for stock water included in the claim were adequate, whether the decree language would allow the inclusion of stock water as a purpose of use on the existing claims, or whether a separate beneficial use claim would need to be filed. A more detailed review of the decrees pertaining to the BWCC water rights needs to be undertaken as a step in resolving this issue.

In regard to the Big Wood's right to water from American Falls Reservoir, research conducted by Allen found that neither the BOR nor BWCC had filed

claims on the storage right associated with their diversion right from that source. Mr. Harmon was going to contact the BOR to get more information on which to base a decision of whether an additional SRBA claim needed to be filed.

A quick review of the SRBA claims filed by BWCC with Mr. Harmon showed some indiscrepancies and elements confusing to him as well as to us. Most had already been uncovered earlier and mentioned in a memo found in claim 37-13116. I advised Mr. Harmon that when he eventually sat down with an AJ agent that had had time to really delve into our records and compare them with BWCC records he might expect that there would be some changes needed in the claims as they were currently configured, and possibly some additional claims filed.

1817, 3818 and 2644) O R D E R

WHEREAS, it has been called to the attention of the Commissioner of Reclamation that an error has been made in land description and place of use as set out in these licenses, and

WHEREAS, on a further consideration of the said licenses, the permits under which the same were issued, together with the data accompanying the proof of beneficial use and other information available to the Department of Reclamation, it is found that the license heretofore issued and designated as No. 1817 should be amended and corrected in the following particulars: By adding to the points of diversion as specified in said license No. 1817, the Dietrich and South Gooding Divers on dams, by striking out the figures 32,416 and inserting in lieu thereof the figures 86,400 and by striking out the figures 950 and inserting in lieu thereof the figures 2160, thus making the description and place of use read as follows: To be used upon the irrigable portion of 86,400 acres of land covering 2160 forty-acre tracts or legal subdivisions situated in and being a part of the Idaho Irrigation Company's Carey Act project; the said water, together with the water afforded by licenses Nos. 3818 and 2644, is appurtenant and to be used as the water right of the Idaho Irrigation Company project.

WHEREAS, the license heretofore issued and designated as No. 2644 should be amended and corrected in the following particulars: By striking/the figures 24,000 and inserting in lieu thereof the figures 36,000 and by striking out the figures 629 and inserting in lieu thereof 900, thus making the description and place of use read as follows: To be used on the irrigable portion of 36,000 acres of land covering 900 forty-acre tracts or legal subdivisions, situated in and being a part of the Idaho Irrigation Company's Carey Act project, the water afforded by this license to be used in conjunction with and upon a part of the same acreage as the water afforded by permits and licenses Nos. 1817 and 3818.

WHEREAS, the license heretofore issued and designated as No. 3818 should be amended and corrected in the following particulars: By adding to the points of diversion as specified in said License No. 3818 the Dietrich and South Gooding Diversion dam; by striking out the figures 32,416 and inserring in lieu thereof the figures 86,400 and by striking out the figures 950 and inserting in lieu thereof the figures 2160, thus making the description and place of use read as follows: to be used upon the irrigable portion of 86,400 acres of land covering 2160 forty-acre tracts or legal subdivisions situated in and being a part of the Idaho Irrigation Company's Carey Act project; the said water, together with the water afforded by permits and licenses Nos. 1817 and 2644, is appurtenant and to be used as the water right of the Idaho Irrigation Company project.

1817

NOW, THEREFORE, in view of these conditions it is hereby ordered that said license Numbers 1817, 3818 and 2644, be amended and changed as hereinbefore indicated and new and correct copies be issued, and that the fee paid by the permit holder be corrected to conform to the new acreage, inasmuch as the three above mentioned permits together constitute the water right of the Idaho Irrigation Company's Carey Act Project and are inter-related, being appurtenant to a gross area of 2160 forty-acre legal subdivisions requiring only one field examination of each and every forty-acre tract in question.

Dated this 29th day of June, 1922.

W. G. SWENDSEN,

Commissioner of Reclamation.

To process a transfer, Pam worked with A37-00867Z0/Z1/Z2 to create a transfer record on the WR side. After she finished her work, most time-saving for AJ folks is putting the Lots on 1/4 1/4 tracts where none existed previously on the A-records, I have copied her records to working files back on the AJ side. Intentionally skipping _Z3 in case the claim should be amended and need a _Z3 version, the work copies are A37-00867Z4/Z5/Z6. With AJQ7 you can take a look 1/19/94 after the BAT_UPD to look at the list starting with A37-00867 to note the appearance of these BWCC records under this right. I think I left sufficient notes in the Remarks of _Z4 to explain why its there with _Z5 and _Z6 pointing back for reference. An AJ5 should give you a look to the details. Thanks Pam for sharing your work.
