State why an extension of time is requested explaining how a diligent effort has been made to meet the deadline:

New buyers of property who realized previous owners had not filed on historical
delivery of High Water from Challis Creek. They also wish to file on springs which
flow onto their property in hopes of resolving water delivery disputes between
themselves and watermaster/neighbor. Recommend Extension be granted and waiver of
Late Fees. (They are petitioning court to file late claims.)

Thank you ...thank you...thank you! I thought I was losing my mind! Why don't you fax me a copy of 72-16559 and I'll go ahead and data enter it, then Doug can bring the real McCoys back with him next week...

Apologies are in order to all of you. Jeanies email prompted me to look in, of all places, the Custer County correspondence file. Both of Wegner's claims are there.

Again, my apologies.

Do you want me to data enter 72-16559 or hold it here for Doug to pick up next week?

Sally,

These rights have driven us all crazy I think! Anyway, I'll be darned if I can the original claims for A72-16559 and A72-16560! (Doug said he will look some more in his office.) I have the receipts you sent down, but don't have the claims to put them with. I was able to data enter A72-16560 from a copy of the claim attached to the SF4 in my file. I have no SF4 for A72-16559 and so I can't even data enter something...could you possibly check around up there a little and maybe even find a copy of the SF4 for A72-16559 to send me. Maybe if I get something data entered, the originals will turn up someday! Thanks, Jeanie

Hi Jeanie. The late fees were paid and I have the receipts:

Claim Nos. A72-16559 and A72-16560
Receipts #C047465 and C047466

I was going to enter the receipts on the claims, as usual, to get them off the temp, but they haven't been data entered yet. I'll put the receipts, along with Robin Wegner's cover letter, in the mail to you today.

Take Care ... Sal

Thanks for the info, Nick. I called Gary that afternoon after we talked about this, but he wasn't home. I explained things to Robin and she said she'd tell Gary and that if he had a problem, she'd have him call me. He didn't call yesterday so I guess he either agrees or, if not, the attorneys can deal with him...I'll go ahead and prepare the SF5's.

By the way, I've prepared new recommendations for those two rights of Roberta Green's (72-02147A and 72-02149E). What's next on that?

Talked with Crystal yesterday, she works with Al Barker, and I think things are on track with 72-10069A too...

Hi Jeanie. I had a call from Norm Semanko yesterday afternoon, and I told him about Gary Thor telling you that the irrigation and stockwater are supposed to be additive. He said absolutely not. He said the agreement that everybody signed provides that the stockwater is inclusive within the irrigation water (i.e. 3 inches irrigation water + 1 inch of stockwater = 3 inches total water), and that Jack would come unglued at, in effect, an additional inch being added onto the quantity. Norm surmised just like we did that maybe Gary is confused, and thinks that having one inch of stockwater included within the three inches of irrigation water means that he's limited at all times to just two inches of irrigation water. Norm's opinion just confirms my belief that we shouldn't do anything until you contact Gary to explain how the non-additive description works on the ground. If after you have educated him he still insists that the total quantity is four inches rather than three, I think we should go ahead and prepare the SF-5 listing three inches and send it out. That way Norm and Pat can deal with Gary's confusion and sign the SF-5s as soon as they've dealt with it. In the meantime I asked Norm for a copy of the actual agreement showing that the irrigation and stockwater are intended to be non-additive. He said he would send a copy right over to me. I'll fax a copy to you as soon as I get it. Thanks for bulldogging these SF-5s. NBS

Hi Nick,

Am working on the Challis/Wegner claims for SF5's and the information you faxed me for this one shows .02 cfs for stockwater, .06 cfs for irrigation, with a total of .06 cfs. Happened to be talking to Gary Thor and he said the .06 cfs is ADDITIONAL to the .02 cfs for stock, for a total of .08 cfs. Is there a problem with that? Thanks, Jeanie

Hi Jeanie. What does the chart that Norm Semanko prepared show? I didn't notice on it that the stockwater was additive to the irrigation. Conceptually there is a problem because generally we don't recommend stockwater as additive on top of the irrigation unless there is some kind of segregation of the system--that is, unless the stockwater goes one place and the irrigation goes down a different path to a different place. Where the two uses take place together, we generally recommend the two as non-additive to show they are alternative uses--i.e. a gallon of water is running down the ditch to the field. A cow either drinks it or doesn't. If the cow drinks it the gallon doesn't make it to the field, but if the cow doesn't drink it it does make it to the field. Thus, the gallon can be used for one use or for the other use, but not for both uses. It seems to me that this is the situation here insofar as the water from the spring will run across the pasture. If the cows are in the pasture some of the water is consumed as stockwater. If the cows aren't in the pasture all of the water goes for irrigation. So, it seems like the standard "either/or" non-additive situation. However, since in this case it's non-existent water anyway, I doubt it makes any difference. I would suggest that you talk further with Thor to make sure he's clear as to how we generally recommend this type of thing. If he's still insistent, ask for a copy of the settlement agreement so we can see precisely what they all agreed to, and then decide how to recommend it. Thanks. NBS

Hi Jeanie. The late fees were paid and I have the receipts:

Claim Nos. A72-16559 and A72-16560
Receipts #C047465 and C047466

I was going to enter the receipts on the claims, as usual, to get them off the temp, but they haven't been data entered yet. I'll put the receipts, along with Robin Wegner's cover letter, in the mail to you today.

Take Care ... Sal

Subject: Wegner Irrigation Claims and Note(s)

Hi Jeanie. I called you earlier, talked to your v-mail, and then got smarter and decided to send you e-mail instead. Don gave me Wegner's late claims yesterday late afternoon, saying you could answer any questions I had. What does "NP" mean on the Post-It's you(?) stuck on the claims? (Not Paid?) (Not Pretty?!) (Not Perfect?!) I can't decipher the initials, but am assuming it was you who put them on.

I entered the receipt number for the domestic claim, printed a copy for Wegner and will send it with her/him (?) with the rec't as soon as I hear from you. If he/she still owes \$50/irrigation claim, I want to incorporate that into my letter.

Thanx very much for your help.

...Sal

told Sally I hadn't ever seen those
"new-late" claims so I had no
idea of what the NP meant...

Don,
There is nothing in the folder of A72-16559 except a copy of my Request for Extension of Time thing and a copy of the first page of a paper claim for a spring. (I assume this was for irrigation purposes.) Then in A72-16560 and A72-16566, there are SF4s. I will Fax you copies of page 3 and mail copies of the entire packets. Let me know if you need anything else...

Jeannie, I'm unable to find the motions for A72-16559, A72-16560 and A72-16566 here. Even Sandy's tracks for the Repository have a gap. In the immediate future to respond to Jack Challis's questions, would you FAX me the pages for these claims where the fees are addressed? In the longer term, would you send me/us a photocopy of the entire motion package?

Thanks,

Don
