Subject: B72 D & S CLAIMS

Roxanne,

I have two new d and s claims for B72 that I have been trying to data enter recommendations for for some time now. From what I see, I believe that they are done except for one glitch (see below). They were both filed as based upon decree, but I have corrected that to beneficial use, using the priority date of the decree & assuming that their predecessor began watering stock in the winter at the same time he began farming and watering stock in the summer. These are the claims, both in the name of Cheryl and Richard Baker:

72-16568 Recommendation Complete

72-16567 Complete, except that the correct source is Salmon River, E. Fk. It appears as *Salmon River* on the recommendation that prints from the CVR screen. However, from Water Right Reporting, the recommendation report shows the source correctly as Salmon River, E. Fk.

Congratulations on your marriage.
