Subject: CSRBA Late Claims 92-11012 and 92-11013
Attachments: Amended Claim 92-11012 (9-11-15).docx; Amended Claim 92-11013 (9-11-15).docx; 92-11012_Layout.pdf; 92-11013_Layout.pdf

Dear Mr. Sartain,

Per our telephone conversation today, I am sending you two draft amended claims. To briefly recap, after the CSRBA court approved your motion to file late claims 92-11012 and 92-11013, the claims were forwarded to IDWR. I have been asked to review the claims and make a recommendation to the court as to what the final decreed water right should look like. After speaking with you about how the water is used, I feel we need to amend the claims to show that the use claimed is for in-stream stock (I can't recommend what you haven't claimed). Therefore, I have prepared amended claims for both 92-11012 and 92-11013 to represent an in-stream Stockwater use. This means that water is not diverted from the stream to a trough or something like that.

I have added a beginning point and ending point for each segment of stream within each parcel. I have also added the intermittent stream as a source. It looks busy, but this should have you covered. And if you ever sell one of the parcels, you won't have to deal with splitting a water right since each parcel has its own claim.

Feel free to make changes as you feel appropriate on the amended claims. Please be sure to initial any changes you might make. When satisfied, sign the claim and send the originals back to me at:

ATTN: CRAIG SAXTON
IDWR
PO BOX 83720
BOISE ID 83720-0098

There are no additional fees and you don't have to do anything with the court at this point. So that makes it a little easier.

Take a look and give me call if you have questions and I will be happy to talk it though with you.

Respectfully,

Craig L. Saxton
