27 ACRES TOTAL

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

This right remains subject to the right of the original appropriator, in good faith and in compliance with state laws governing changes in use and/or expansion of water rights, to cease wasting water, to change the place or manner of wasting it, or to recapture it.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Use of this right is combined with water from Black Canyon Irrigation District.

MEMORANDUM

TO: ADJUDICATION FILES 63-31119

FROM: DANIEL A. NELSON

DATE: 9/19/06

SUBJECT: CLAIM REVIEW

This claim is based on a beneficial use right. The owner supplied an affidavit from Harmon E. Hughes who is a neighbor that sold them the pump used to divert the water from the Sand Hollow Wasteway in 1968. This affidavit is sufficient to establish the priority date requested.

Burke Scholer performed a field exam on this property. Mr. Scholer discovered that there is a pump on the property that diverts water on both sides of the channel. The pump pumps to a sprinkler system on the East side of the channel, and open discharges into a ditch on the west side of the channel to irrigate those fields. Mr. Scholer determined the rate of flow of the pump by using a theoretical calculation. The pump only pumps approximately 0.30 cfs to the sprinkler system under pressure, but can pump 0.98 cfs to the ditches. Therefore, the maximum capacity of the system is 0.98 cfs. Mr. Scholer also found that the full 27 acres were being irrigated. The claim requests an inch per acre or 0.56 cfs, so that is what will be recommended. No volume limitation is required, since this is a surface water right.

Some if not all of this land is also irrigated using Black Canyon Irrigation District water. Therefore, a condition will be needed to show this claim is used in conjunction with irrigation district water. A condition limiting the total water use to 0.02 cfs should also be included on this claim. Everything else not discussed in this memo should be recommended as claimed.

NOTICE OF CLAIM

Continuation of Question 13 (other water rights).

This water right for which this Notice of Claim is filed is the primary water right for 6 of the 27 acres claimed. There are no other water rights appurtenant to those six acres. Additionally, this water right is supplemental to the remaining 21 acres, which are covered by a water allotment from the Black Canyon Irrigation District.

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF
THE STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA

Case No. 39576

) Water Right Claim No.

)

) AFFIDAVIT OF HARMON E. HUGHES

)

)

)

)

)

STATE OF IDAHO)

County of Ada) ss.

HARMON E. HUGHES, being first duly sworn upon oath, deposes and says:

1. I reside at 6400 S. E. 8th Avenue, Caldwell, ID 83607. I have lived at my current residence since 1962 and am currently 80 years of age.

2. I am familiar with the historical use of the water right, which is now claimed by Randy and Connie Harrold in the Notice of Claim to Water Right attached as Exhibit A to my affidavit.

3. In 1962, my wife and I moved into our current residence, which is located about 2 miles from the place now farmed by Mr. and Mrs. Harrold ("the Harrold place"). We farmed about 350 acres at our place, and as a farmer, I am familiar with irrigation practices in the area.

4. Back in the 1960's, the Harrold place (before it was known as that) was known as the Waite Farm. I am familiar with some of the history of the irrigation practices on the Harrold place/Waite Farm for the reasons described below and also because over the years, I driven past the place many times and have observed it from the road.

4. I recall there was a waste ditch that ran north and south through approximately the center of the Waite Farm. That waste ditch is still there today.

5. In 1968, I sold a propane pump to Waite Farm, which they subsequently used to pump water from the waste ditch to irrigate their farm. I recall observing Waite Farm using the propane pump to pump water from the waste ditch into sprinklers and some siphon tubes to irrigate their land on both the east and west sides of the waste ditch. I observed Waite Farm continuing this irrigation practice from 1968 and continuing for as long as they were there. While I cannot recall the exact quantity of water the pump was capable of producing, I do recall that before I sold the pump, I would sometimes irrigate up to 60 acres with the pump.

Further your affiant sayeth naught.

HARMON E. HUGHES

SUBSCRIBED AND SWORN to before me this 21st day of October, 2000.

NOTARY PUBLIC FOR IDAHO
Residing at Star, Idaho
Commission expires Sept 5, 2004
