Remarks:Comments:

1. Igraves 7/18/2006 P/U

Comment: Quarters appear mis-aligned on the field exam aerial photo resulting in 2 acres licensed in the NWSE. Based on the 1987 aerial photo, the field boundary does not overlap into the NWSE. The 2 acres licensed in the NWSE were more accurately claimed in the SWSE. The recommendation reflects this clarification.

2. Igraves 7/18/2006 P/D

Comment: One well was licensed and three were claimed. Claim 63-7553 was then split. Portion 63-31220 uses the licensed well and portion 63-31219 uses the other two claimed wells. The licensed well is described to the forty acre tract on the license and to the ten acre tract on the claim. The claim lists the well in the NWSWSE, however, according to the licensing aerial photo, the well actually appears located in the NESWSE. Because of the discrepancy, only the forty acre tract was recommended.
