Memo

Regarding: 67-546 and its children

From: Dan Narsavage

Date: January 18, 2006

The pedigree of this claim is all messed up. It says that 67-546 A was split (status = "See Remarks") and that its only child is 67-14102. The POU for 67-14102 is miles away, the source and water use are both different, and I cannot find the current owner of 67-14102 anywhere near the POU for 67-546.

Moreover, Newbold (owner of 67-14102) paid \$25 for 67-14102 (Receipt #W021150), which not only would not suffice for an irrigation claim such as 67-546, but would be unnecessary altogether if a split was the intent.

My conclusion is that 67-546 A was never actually split; rather, someone within IDWR somehow mistakenly changed its pedigree and status. I will change the status of 67-546 A back to "Active."
