RE: CHANGE IN OWNERSHIP FOR SNAKE RIVER BASIN ADJUDICATION
(SRBA) 67-10793

Dear Sir or Madam:

It has come to our attention that you may now be the owner of a tract of land in Washington County. According to our records, the property to which I am referring to was previously owned by Gunn Shelby & Sloan. The legal description is as follows:

T11N R04W S19	NE1/4 SW1/4
	SE1/4 SW1/4
	SE1/4
T11N R04W S20	NE1/4 NE1/4
	NW1/4 NE1/4
	NE1/4 NW1/4

This property was filed on in the Snake River Basin Adjudication (SRBA). We recommend that if, in fact, you now own the property in question, and do use the water for the purposes claimed, you file a "Change in Ownership" with this department in order that we may send all further correspondence to the appropriate owner(s).

Enclosed is a Change in Ownership form. Please fill out the form completely, sign and date it and return it to my attention along with a "copy" of your Warranty Deed and legal description of the property you have purchased.

If you have any questions regarding this matter, please call this office at 287-4800.

Respectfully submitted,

Craig L. Saxton
Water Right Supervisor
Adjudication Bureau
Enclosure(s)

Re: SRBA claims **67-566, 67-569, 67-591, 67-601, & 67-609**

October 12, 2005

To Whom This May Concern:

My name is Dan Narsavage and it is my task to review the claims to water rights along Mann Creek in the Snake River Basin Adjudication (SRBA). In reviewing the above referenced SRBA claims, I have encountered evidence that you have purchased the property to which these claims are appurtenant. Please refer to the map and claim reports that I have enclosed with this letter when addressing the following:

First, if all this land is in fact yours, you will need to file a change of ownership with the IDWR so that we can update our records. I have enclosed a "Change of Ownership..." form for your convenience.

The water rights that Gunn Shelby and Sloan claimed (listed above) were decreed for a total of 200 acres at 0.02cfs/acre, and without evidence to suggest otherwise I am limited to recommending these rights as they were decreed. In my initial assessment, I have found roughly 217 acres of your land that appears to have been irrigated in 1987. This means that there are currently 17 acres of irrigated land for which I cannot make a recommendation. This land in doubt will hereinafter be referred to as "the additional land."

There are a few actions that you may take in order to obtain a water right for the additional land. First, it appears to me that water right 67-633, originally decreed for 0.12cfs to be used on 6 acres, was described to be on a portion of your land. You might wish to file another claim for this additional decreed water. This will cost a \$50 filing fee, but allow me to recommend those additional 6 irrigated acres to you, for a total of 206 irrigated acres.

Second, please inspect the enclosed map and ensure that my initial assessment of your irrigated lands in the aerial photo is accurate.

Finally, in order to recommend a water right on the additional land, either a beneficial use claim or an enlargement claim will most likely need to be filed. A beneficial use claim would be filed if you can show that the additional land was irrigated prior to May 20, 1971. A beneficial use claim establishes that a new appropriation of water took place prior to the mandatory permit statute (May 20, 1971) and additional water was used to irrigate the additional land.

An enlargement claim would be for additional land that commenced being irrigated after May 20, 1971 and prior to the commencement of the SRBA on November 19, 1987. An enlargement claim will not allow you to divert additional water, but will allow you to use your decreed water on the additional land.

Please call, write, or email me on or before **November 18, 2005** so that I may recommend your SRBA claims in a timely and accurate manner. I understand that it has been several years since these claims were filed and that the goals of this letter may not be completely clear to you. If this is the case, please call me and we can discuss your options. Thank you very much for your time.

Sincerely,

Daniel L. Narsavage
GIS Specialist

Total Acres: 237.5

Conditions of Approval:

- 167 This right shall receive 100% of its decreed amount until the natural flow of the waters of Mann Creek shall decrease so that all rights cannot receive 100%, at which time this right and other various decreed rights, as established by the district court in Jefferson et al. v. Higgenbotham et al. (Washington County, June 3, 1921), shall be cut to 70% of the said amounts, beginning with the latest right and proceeding to the earliest right in the order of priority.

IDAHO DEPARTMENT OF WATER RESOURCES

Adjudication Recommendation Report 67-566 V1

2. K06 This right is limited to the irrigation of 50 acres within the place of use described above in a single irrigation season.
3. 168 This right is a Secondary Right, as established by the district court in Jefferson et al. v. Higgenbotham et al. (Washington County, June 3, 1921), and, as such, is subordinate to all Primary Rights on Mann Creek.
4. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

Remarks:Comments:

1. mcase 5/26/2004 POU

Comment: Decreed irrigated acreage is 50 acres, claimed irrigated acreage is 253. Because of this I generated a recommended POU shape based on the Decreed PLS description. I removed the acreage from the claimed matching QQs because the total was a lot more than the 50 acres decreed.

2. mcase 5/26/2004 Quantity

Comment: Could not determine recommended annual diversion.
