Photo #: 1070742

Notes

T1S R21E Section 7

- Stockwater is stored in two tanks, one located next to the well and the other about 150 ft north of well across the road
- The situation according to the license, permit documents, field exam:
 - License right 37-2577 is for irrigation of the land in Section 7 from a well in NENWSW Section 8.
 - Licensed right 37-2059 is appurtenant to this land, but is unclaimed.
 - Claim 37-2577 is for stockwater from a well in NWNESW Section 7
 - Beneficial use claim 37-10727 is for domestic, stockwater, and irrigation from a well in NWSW Section 8.
 - The previous owner, Roy Brady, filed claims 37-2577 and 37-10727. Mr. Brady has since passed and the land was sold to Richard Saiya.
 - There is a possibility of forfeiture due to non-use, need research the use history of this right.

- An easier option:
 - Have current owner amend the claims so that 37-2577 is from the well in NENWSW Section 8 and 37-10727 is from a well in NWNESW Section 7.

- Data used for review: 1987, 1992, & 2004 aerial photos, Blaine Co Tax Records, Idaho Ownership (idown.shp), & USGS 1:24,000 Topo

Roy & Billie Brady [Roy Dead -SOLD]
Richard Saiya [NEW OWNER]
900 A Industrial Road
San Carlos , Ca 94070

10/7/05

On 10/6 I went up to Blaine Co. Assessor and Recorder to find out the new owner of these water rights and I also talked to Bob Simpson Watermaster of Little wood river Irrig. Dist. And Bob informed me of Richards Manager Eddie Green so I called Eddie and got Richard Cell phone , lucky he was in the area and I visited with him about going to IDWR Twin and get these rights changed to his name which he assured me he would do just that . I got an appt. to meet Eddie today and review the rights and POD of each. And while reviewing the files Eddie assured me that right # 2577 is the well in section 7 for stock water , during past the owners used a portable gas motor to run this pump for water stock and the motor is no longer available, Eddie said they have two big water tanks one beside well and the other across the road North [see green photo], irrigation of this land is by District water, and why the License reads section 8 and the claim section 7 Eddie could not answer but by photo it is in section 7 also see GPS. Right 10727 location of well is incorrect the well is and has been for years East of house as marked on 1987 Photo and this well is used for domestic-stock and lawn irrig. Eddie did say that this well may have been use for irrigation of the 40 acres but he is not aware of it and he worked for the past owner, he said this property is also irrigated with District water and this water right is in section 8 as by photo and GPS.

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. J. Melvin Thorne Spencer W. Thorne
James M. Thorne - Farmers - Carey Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 25887 Aug. 16 1955 July 25 1955

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. under ground water 120 ft south of the NE corner
of the NW Quarter of the Southwest Quarter (NW 1/4 SW 1/4) Sec 8 T. 1 S. R. 21 E. 1 N.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well 100 ft deep 100 ft 20" casing 13 ft to water
Eight inch Discharge. Water measured over a weir
Irrigation Canal & Irrigation ditch to Point of use.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigating Farm land Sub division #1: 160 acres Hay & Grain
Sprinkler Irrigation system includes 1300 ft 8" steel pipe
1300 ft 10" steel pipe + 3 - Sprinkler lines
1300 ft long 17 1/2 HP Sump Pump & 20 HP Booster Pump

well is used as primary water

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: This water is pumped in exchange
for irrigation district water on higher lands.

Reinspected on July 19-59 by E. T. H.
Water was not measured but was putting out
approx 50 to 60" A 7 1/2" id horizontal pipe was running
half full. He says this is a dry year and the
water is simply not in the well claims much
more pumped in past years.

This examination was made on the 22 day of July, 19 58

Would have had to carry equip (Signed) Carroll B. Stevenson Examiner.
1/8 in. to measure water.
