RE: Notice of Error Reply for Coeur d'Alene-Spokane River Basin Adjudication
(CSRBA) Claim No 94-9390

Dear Mr. Roda:

Thank you for your helpful reply which I received November 6, forwarded to me at my farm. I am replying after the drive back to Chicago. I have the following comments:

- Regarding an apparent intermittent stream depicted in your topography maps as well as one I submitted myself, dated 1975, (for historical accuracy and completeness) that flows south and west from the southeast end of the pond, ultimately toward Black Lake: as I stated in my claim, there is now no evidence of such a stream, nor has there been during the 24 years that I have owned the farm. I think this is corroborated in the 2006 picture that I also submitted (and true in all similar pictures that I have seen). Therefore, for accuracy, I would prefer to say that the unnamed stream feeding the pond sinks in it. However, if the Department is convinced of the worth of calling it a tributary of Black Lake, I can live with that; I have made my case.
- I submitted a CSRBA claim for the storage of water in the man-made pond to Linda Werner in your office September 9, 2015, and paid the fee.

I appreciate the help that I have received from the Department in these matters, which are of considerable importance to me.

Yours truly,

SCANNED
