RE: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-8265

Dear Claimant(s):

The Idaho Department of Water Resources has received the Notice of Claim to a Water Right form you submitted for Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-8265. Before the recommendation is completed for this claim, I want to advise you of the potential options for your claim.

The Notice of Claim to a Water Right for claim number 95-8265 was filed based on the licensed use of water within the Hilby's Addition to Squaw Bay subdivision with a claimed priority date of February 15, 1983. The current structure and fees paid for this claim dictate that the domestic portion of the claim can only be recommended under Section 42-111(1)(b), Idaho Code, which allows for a maximum diversion rate to 0.04 CFS and a maximum diversion volume of 2,500 gallons per day. The license from which this claim is based upon allows for the domestic use of water within 18 homes in addition to 4.0 acres of irrigation.

If you wish, you may amend your current claim to match the use dictated by the previously issued license. Primarily, the number of homes claimed to be served by the water right needs to be amended from 1 home to 18 homes. If the remaining 17 homes have been disconnected from the water system, the quantity of water recommended under this right will be reduced to more accurately reflect the needs of one home. The use and quantity claimed from this license will require an additional \$20.00 of filing fees after applying the \$54.00 you have already paid. The additional cost relates to the 0.20 CFS of water diverted for domestic purposes. This amendment will match the claim to the license and allow for the use of significantly more water. If you need assistance with the amended claim, you can schedule an appointment with me in my office and I will be happy to help.

PLEASE NOTE: If the amended claim form and filing fee are not submitted, the domestic use under this claim will be recommended as described above for 2,500 gallons a day.

Do not hesitate to contact me if you have any questions. I can be reached by phone during business hours at 208-762-2800 or by email at evan.roda@idwr.idaho.gov.

Best Regards,

Evan W. Roda
