IDWR/NORTHERN

Water right number: 94-7071

Claimant: City of Harrison, PO Box 73, Harrison, Idaho 83833

Attorney: Mariah R. Dunham of Morris and Wolff, P.A., 722 Main Avenue, St. Maries, Idaho 83861

1. Describe the portion of the proposed recommendation which you disagree (e.g. priority date, period of use, source):

Clamant objects to the second proposed condition which states as follows:

To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from City of Harrison Well No. 3 located in T47N, R04W, S01, NESE (Lot 7)

2. Describe the changes you wish to make to the proposed recommendation:

The clamant requests removal of the proposed condition.

3. Give a brief explanation as to why you disagree with those portions:

IDWR cannot add new conditions to licenses it previously issued. This is a licensed groundwater right that does not include this condition; thus, including the condition is a collateral attack on the City's licensed water right.
