Re: Status of review for 91-7909

I spoke with Carter about the history of this claim. He said that we want to wait on preparing a recommendation for 91-7909 until at least after the initial hearing is held for 91-7833 held by Jackson Timberland Opportunities.

When it is time to make a recommendation, we need to work with Linda. Any recommendation for forest practices needs to include X07 and N17.

We also need some sort of evidence of priority for 91-7909 which was not included in the claim filing.
