RE: 45-10808, 45-10991

Dear Mr. Darrington,

I have enclosed a couple of Objection Forms which you will need to file with the SRBA court in order to make changes to the recommendations of your water rights which were recently included in a Director's Report. Please follow the instructions included with them. These forms will help you correct the Address, Quantity, Point of Diversion, Purpose of Use, Place of Use or whatever else you want to change. The stockwater right you now have is only for a 100 head dairy. Should you wish to expand this use in the future, please contact the Department as you will need another water right to do so.

If you have any questions or I can be of any further assistance, feel free to contact me at the office.

Sincerely,

A handwritten signature in cursive script that reads "Jeanie".

He called about these two recommendations and wants to make some changes. They both use the same well but were claimed and recommended differently, so the POD will need to be corrected on at least one of them. (I told him to get a map to make sure, which he will probably need to amend his claim anyway.) Looks like the POU is also wrong on 45-10991. (The original claim shows they wanted the NENE of Section 2 but we data entered the SENE.) Dale (45-10991) said they moved a trailer house onto the property and started using his Dad's (45-10808) well in 1979. The 100 head dairy was actually started in 1960. The place was homesteaded in 1920. Dale is now running the dairy and wants the stockwater portion added to his claim and removed from his Dad's. He also said he plans to increase his dairy to 300 head in about ten years. I told him he only has the right for the 100 head now and when he wants to increase the herd, he will need to contact us as he will need a water right.
