Subject: RE: CSRBA Claim Number 94-9390 & 94-9454, Source and Tributary

Dear Mr. Nolan:

We have received your email response addressing your concerns regarding the source, tributary and priority date relative to the above numbered claims.

I am going to defer my response to our Water Rights Supervisor, Mr. Chad Goodwin. Please contact him for further discussion. He can be reached at: (208) 762-2800, or by email at chad.goodwin@idwr.idaho.gov.

Thank you.

Subject: CSRBA Claim Number 94-9390 & 94-9454, Source and Tributary

Dear Ms. Werner:

I received your excellent response of January 29, 2016 to my letter of January 13, 2016 as you promised. I appreciate your considerate responses to my concerns.

But I still have a problem: In the last two sentences of your second paragraph, you state, "These maps are verified by aerial photos, field checked and edited where necessary. That being said, based on a review of the map and **corresponding 2013 aerial photo**, we are unable to change the tributary from Black Lake to "sinks."" With the claims listed above, I submitted an aerial photo dated 2006 which I think shows the pond pretty well; I see no evidence of a stream flowing from the southeast end of the pond that might be a tributary of Black Lake. I know that I am repeating myself, but I am regularly (I am an active farmer) in the vicinity of the pond, and in 24 years I have never seen any such evidence. Therefore I am most interested in the **corresponding 2013 aerial photo**

highlighted in your writing-- it shows such a stream? With a lot of respect for you, I, like St. Thomas, would like to see it for myself. Would you please send it to me?

I appreciate the very interesting photo with claim numbers, and your point is clear; I'm glad to have it. I gather the pond claim has been numbered 94-9454. But the priority date is listed as 8/2/1951; this is not the date I stated in the claim I filed, which was based on a 1947 photo found by Mr. Shaun Maxey; **that date is 7/1/1947 -- should this not be corrected?**

Thank you very much,

Best regards,

Clark Nolan
