David E. Reay
Garden Valley, Idaho 83622

Dear Mr. Reay:

In reference to your letter dated February 8, 1977, a water right that has been beneficially used at least once every five (5) years may be filed for at this office by submitting a claim to a water right with a priority date of when the right was first established. However, if water is not used at least once in a five (5) year period, the right is voided and may only be re-established by initiating use again, the priority date being the time of the water right use resumption.

Again, both conditions require filing of a claim to a water right, the only difference between them being their priority date. In addition, it is assumed that the water use will be only for single (one home) domestic purposes. If your conditions are other than this, it would be advisable for you to call or come in and speak with us.

Thank you for your cooperation in this matter. If you have further questions, please feel free to contact this office.

Sincerely,

ROBERT HOWARD
Water Resource Agent

Mr. David E. Reay
Garden Valley, Idaho 83622

Dear Mr. Reay:

Please find enclosed two forms to use in filing your claims to water rights.

It will be necessary to file a claim for the spring and another one for the well. Please explain in the remarks column on each claim, if the well water supplements the supply from the spring.

Instructions to assist you in completing the claims have been included. Should you desire our assistance, we would be happy to help you in our office anytime, or we will be in your area next spring after the Boise County property owners have been included in the Payette River Adjudication.

Thank you for your interest.

Sincerely,

DONALD V. SHAFF
Water Resource Agent
