RE: Evidence of priority date for Claim 95-15698

Dear Claimant(s),

The Department of Water Resources has received your Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) water right claim. We are unable to recommend your adjudication claim at this time for the following reason:

The Notice of Claim to a Water Right identified with the number shown above was submitted for the domestic use of water from Coeur d'Alene Lake with a claimed priority date of July 17, 1946. The evidence provided to support this priority date is insufficient to prove the beneficial use of water for domestic purposes within the claimed place of use. The submitted well agreement indicates the pending construction of a new well, but does not confirm its completion or when the water source was first used beneficially within the claimed place of use. The described location of the proposed well also indicates that it may have been in a neighboring tax lot and not the one claimed. Tax lot records for the claimed parcel (49N04W110520) indicate that a home was first built on the property in 1990. We will move forward with the recommendation of your CSRBA Water Right claim once provided sufficient evidence to verify the beneficial use of this water source for domestic purposes within the claimed place of use beginning on or before the priority date claimed. Please submit the required evidence within 30 days, referencing all documents with the corresponding claim number.

PLEASE NOTE: IDWR will recommend the Court decree this claim disallowed if no further evidence is submitted. It will be to your advantage to provide clear and convincing evidence.

If you have any questions or concerns, please contact our office and we will be happy to help. I can be reached by phone during business hours at 208-762-2800 or by email at evan.roda@idwr.idaho.gov.

Best Regards,
