Re: Original Notice of Claim to a Water Right No. 63-2799

Renumbered to Notice of Claim to a Water Right No. 63-31554

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office. Also enclosed is a copy of the original claim for your reference.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your right. This claim represents the remaining portion of the claim filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

If you have any questions concerning this ownership change, or the enclosed claim copy, please feel free to contact this office.

Sincerely,

Adjudication Section
Western Region Office

Enclosure

Memorandum

Date: September 10, 2002

From: Craig L. Saxton

Subject: C/O for 63-02799

Notice of change in water right ownership was received on 9/10/02 from Bruce and Mary Caywood. They purchased property in T3N, R2W, S31, SENW. This property has licensed irrigation from GW under licenses 63-02799 and 63-03482. Between the two licenses only 28 acres of the 40 acre tract were historically licensed.

Neither of these historical licenses seem to be intended for the property now owned by the Caywoods located in the SENW.

However, SRBA claims 63-02799 and 63-03482 were claimed in such a way that the entire SENW is claimed (the entire 40 acres). A statement in the remarks of SRBA claim 63-02799 states, **“UNRECORDED TRANSFER: ADDED 2ND P/D AND SHUFFLED ACRES IN 1968. A63-03482 USES SAME P/D’S, SPEPERATE ACRES”**.

Thus, since evidence indicates that the Caywood property wasn't originally covered under licenses 63-02799 and 63-03482, but was claimed in the SRBA, it is my conclusion that the claim that should be split is A63-02799 with the claimed accomplished transfer in POU.

NOTE: From the exam for 63-3482 it appears the 23 acres in the SENW did not include the acres shown on the deed from Redding to Caywood. No acres should be conveyed from 63-3482 based on this 1971 field exam.

The claim for 63-2789 filed by Jerry Redding does indicate that in 1968 acres were shuffled on this water right & that the acres (17) in the SENE were separate from the 23 acres in the SENE under Right #63-3482 indicating all 40 acres being claimed between the two rights. This right can be split as

~~claimed however, an expansive claim may be needed
to cover what ^{the} ~~into~~ was shuffled in 1868. NO EXPANSION CLAIM NEEDED. ACC.~~
