Re: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-15509

Dear Mr. or Ms. Renner:

We are in the process of reviewing the above Notice of Claim to a Water Right for recommendation in the CSRBA. This is the claim filed on two springs for a stockwater usage. Before we can complete this recommendation, we need more information from you.

Item 2: Date of Priority. The claim indicates your water usage is based on "Beneficial Use" or "Statutory Claim". Water rights of this type are established by the historic use of water, dating back to when water was first used for the purpose claimed, and are termed beneficial use rights. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. Since the priority date and historic use of a beneficial use right cannot be confirmed by field examination, proof must be provided by the claimant supporting the priority date claimed and the historic use of the water.

Enclosed you will find the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

Item 3 and Item 9: The legal description and parcel number described as T48N R3W Section 7 NE1/4NW1/4, Government lot 4 supplied on the claim do not match those seen on our map. Should it be described as T48N R3W, Section 7 NW1/4NW1/4, Government lot 4?

I've enclosed a map showing the parcel numbers listed for the diversion and place of use. Please show on this map where the springs are located. Also note that there is a temporary claim which has not been filed that appears to be for the spring in question. Do you want to complete the filing of this claim?

Please return the map and evidence of the priority date, to my attention, by **March 28, 2016**. Feel free to contact me if you have any questions. I can be reached at (208) 762-2800 or by email at linda.werner@idwr.idaho.gov.

Sincerely,

Linda A. Werner
Water Resource Agent, Sr.
