RE: CSRBA Water Right Claims 95-16071 and 95-16072

Dear Claimant,

The Department of Water Resources has received your Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claims. We are unable to recommend your Adjudication Claims at this time for the following reason.

The Notice of Claim to a Water Right forms identified with the numbers shown above have been filed for the domestic and irrigation use of two springs in addition to water from Coeur d'Alene Lake. The evidence provided indicates that the use of these different water sources began at different times. We are only able to recommend these claims for the domestic use of the two springs. **If you wish to claim the water use from the lake, you will need to file additional water right claims for that source and priority date.** Claims for domestic use from the lake would include the irrigation of lawn and garden up to ½ acre.

With regards to your existing claims, the information provided does not include a detailed location of your points of diversion (POD). I have enclosed a parcel map of the claimed property. Please mark the map with the approximate location of your two PODs (springs) and return it to our office at the address listed above. Also, as your two claims include different homes with identical POD legal descriptions, we need to know if both homes are connected to the same spring diversion system and lake diversion system. We will move forward with the recommendations of your CSRBA Water Right Claims once provided sufficient evidence of the POD locations. Please submit the required evidence within 30 days, referencing all documents with the corresponding claim number.

If you have any questions or concerns, do not hesitate to contact our office and we will be happy to help. I can be reached by phone during business hours at 208-762-2800 or by email at evan.roda@idwr.idaho.gov.

Best Regards,

Evan W. Roda
Senior Water Resource Agent
Northern Region
