RE: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim 95-12211

Dear Claimant,

The Idaho Department of Water Resources (IDWR) is currently in the process of reviewing adjudication claims in your area. We are unable to recommend your adjudication claim to the full extent requested for the following reason.

The Notice of Claim to a Water Right identified with the number shown above was submitted for the domestic use of groundwater with a claimed priority date of June, 20, 2000. You stated in your claim that water is being utilized for domestic purposes in addition to the irrigation of a food plot and tree farm. Aerial photos of the property indicate that your tree farm encompasses approximately 3.5 acres or more. The permit system for establishing a water right became mandatory for uses developed from ground water after March 25, 1963 (except for domestic purposes as defined by Section 42-111, Idaho Code). The exemption for domestic water use includes uses within the home as well as the irrigation of lawn and garden up to ½ acre.

CSRBA Water Right Claim 95-12211 will be recommended to the Court for domestic purposes only. If you wish to continue the irrigation of greater than ½ acre, you will need to apply for a water use permit. The agents in our water allocations department are available by appointment and will be happy to assist you with your application.

If you have any questions or concerns, please contact our office and we will be happy to help. I can be reached by phone during business hours at 208-762-2800 or by email at evan.roda@idwr.idaho.gov.

Best Regards,

A handwritten signature in black ink, appearing to read 'Evan W. Roda', is written over a series of horizontal lines.
