RE: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-8312

Dear Claimants,

The Idaho Department of Water Resources has received your Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Notice of Claim to a Water Right. We are unable to recommend your Adjudication Claim at this time for the following reason.

The Notice of Claim to a Water Right identified with the number shown above has been filed for domestic, stockwater, and irrigation uses from a spring water source based on a previously issued water right license. The original license was only issued for a groundwater source (well) and only for domestic purposes. The diversion rate claimed for the water use is 0.16 CFS, but the license from which the claim is based upon limits this diversion rate to 0.04 CFS. If filing a water right claim based on a license, all claimed uses and limitations must match that of the licensed right. Before this water right claim can be recommended to the Court, an amended claim form with the correct water source, water use, and diversion rate must be submitted. For your convenience, I am sending you an Amended CSRBA Notice of Claim to a Water Right for Claim No. 95-8312 which includes all pertinent information from the originally licensed water right. Please review the claim form, and if you wish to make any further changes, initial those changes before signing the claim. After your review, return the signed claim form to our office at the address listed above within 30 days of receiving this letter.

PLEASE NOTE: If an amended notice of claim is not received for this water right, IDWR will recommend this claim as disallowed to the Court and the license it is based upon will no longer be recognized when the adjudication concludes.

Please do not hesitate to contact me if you have any questions. I can be reached by phone during business hours at 208-762-2800 or by email at evan.roda@idwr.idaho.gov.

Best Regards,

A handwritten signature in black ink, appearing to read 'Evan W. Roda', is written over a series of horizontal lines.
