SUBJECT: Coeur D'Alene-Spokane River Basin Adjudication (CSRBA) Claim Numbers 95-258, 95-10878 & 95-10928

Dear Mr. Miller:

I'm writing in regard to our phone conversation of Thursday, July 23, 2015, where we discussed the water rights with sources of springs, Hayden Lake and the well. They are as follows:

- (1) Water right number 95-258 was decreed for a spring source (3springs) and water usage of domestic on Lot 11 of North Shores Tracts.
- (2) Water right number 95-10928 was re-numbered from decreed right 95-455 which was decreed for ½ acre of irrigation from Hayden Lake with diversion from the lake and the place of use at Lot 11, North Shores Tracts. The only element of this right that was changed was the identification number; all other aspects remain the same.
- (3) Lastly, beneficial use claim number 95-10878 (the well) was claimed for domestic usage for two homes.

I have enclosed a map showing where the diversion points are located and where the water is used. The locations were taken from the claim files and the original decree map. Please review this information to determine its accuracy, make any necessary changes to the locations on the map and return to my attention.

I'm also enclosing a Request for Withdrawal of Claim. This would be for claim number 95-258, the spring(s) source. If the well is covering the water usage originally supplied by the springs, and the springs are no longer being used, than you may want to withdraw that claim.

I would appreciate it if you would return this information by **August 31, 2015**. Please feel free to contact me if you have any questions. I can be reached at (208) 762-2802 or by email at linda.werner@idwr.idaho.gov.

Sincerely,

Linda A. Werner
Water Resource Agent, Sr.
