RE: Director's Report of Deferred De Minimis Domestic and / or Stock Water Use
Snake River Basin Adjudication (SRBA)

Dear Monte and Jerre Evans:

Please find enclosed the Idaho Department of Water Resources (IDWR) Director's Reports of Deferred De Minimis Domestic and / or Stock Water Use, which have been filed with the SRBA Court. The Director's Reports contain the recommendations of your domestic and stock water uses claimed under water rights 29-14176, 29-14177 and 29-14178. I have also enclosed a Notice of Filing Director's Reports of Deferred De Minimis Domestic and / or Stock Water Uses (Notice) for the rights which contain instructions for reviewing the recommendations and other important information. The Notice was accidentally omitted from the first envelope sent to you (which contained copies of the Director's Reports alone).

Please note you have until July 28, 2016, in which to review the recommendations of your water rights and to file any objections you may have to the recommendations, should you disagree with them. Information on filing objections is contained in the Notice.

SRBA water right decrees play an important part in Idaho water management. I invite you to contact IDWR's regional offices with any questions you have about your water right(s) or this adjudication process. Questions also can be directed to the adjudication staff at 1-800-451-4129.

Sincerely,

for

Carter Fritschle
