Re: Blaine County Water Claim/John A. and Thais W. Majors

Dear Sirs:

On October 25, 1988, this office forwarded to you four Water Right Claim forms upon property located in Blaine County. Those claims included a 1940 domestic use well, an 1891 stock watering surface right, a 1986 well (domestic, stock water and irrigation uses), and an 1891 decreed right for 36 acres. Several of those claims refer to an address for the Majors which is incorrect. The correct address for Mr. and Mrs. Majors is: 365 Gracie Road, Nevada City, California 95959. Some of the forms refer to their address as: 324 Gracy Road, Nevada City, California. Would you please make note in your records of the correct address so that the Majors are properly notified concerning the water adjudication process.

I apologize for this inconvenience and thank you for your courtesy and cooperation.

Sincerely,

KNEELAND, KORB & COLLIER

Please type or print clearly

1. Name of Claimant (s) John A. & Thais W. Majors Phone (916) 265-8354
Mailing Address 324 Gracy, Nevada City, Ca. Zip 95949
2. Date of Priority (Only one (1) per claim) June 1, 1891
3. Source of water supply (a) Bannon & Glendale ditches which flow from the Big Wood River
which is tributary to (b) Malad River
4. a. Location of existing point of diversion is: Township 1 N Range 18 E Section 14,
1/4 of NE 1/4 of NE 1/4, Govt. Lot, B.M., County of Blaine
Additional points of diversion if any: Note that the Bannon & Glendale ditches flow from
the Big Wood at S 12, SWNW per right # 37-00043
b. If instream flow, beginning point of claimed instream flow is:
Township _____ Range _____ Section _____, 1/4 of _____ 1/4 of _____ 1/4,
Govt. Lot _____ B.M., County of _____
ending point is: Township _____ Range _____ Section _____, 1/4 of _____ 1/4 of _____
1/4, Govt. Lot _____ B.M., County of _____
5. Description of existing diversion works (Dams, Reservoirs, Ditches, Wells, Pumps, Pipelines, Headgates, Etc),
including the dates of any changes or enlargements in use, the dimensions of the diversion works as
constructed and as enlarged and the depth of each well. The system is irrigated by gravity flow
(flood) off the Bannon Headgate #49 (14 acres north of Glendale Road). The
balance of the claimant's property (22 acres) south of Glendale Road was orig-
inally irrigated by gravity flow from the Sump which was filled from Glendale
ditch. This area is now also irrigated by use of a 10 HP pump which draws
water from the Sump and Glendale ditch.

FACT SHEET

for

Excessive Irrigation Flows

This information is to be submitted with any application for permit or adjudication claim to water right for which the irrigation rate of flow requested/claimed is more than .02 cfs per acre. One exception is that .03 cfs per acre is allowed for up to five (5) acres.

Soil type and soil profile: very gravelly

Soil water holding capacity: very minimal

Soil intake family (if known): _____

Field slope: 14 acres on bench: 7 acres sloping terrain & 7 acres fairly flat. Of the other 22 acres, about 15 are sloping & other 7 are relatively flat.

Anticipated crops: alfalfa and pasture for stock

Method of irrigation: handlines, wheel lines and flood irrigation

ADJUDICATION CLAIM ONLY:

Is this method of irrigation the common local practice? yes

Have you changed the irrigated method from the one first developed? partially

If yes, describe. To the best of our knowledge, all of the land was flood irrigated at the time of the adjudication of the water rights (Bannon-1891). We now flood as well as using hand and

Remarks wheel lines.

MICROFILMED
FEB 22 1993

A37-00043 B

John A. & Thais W. Majors
NENE §14, T1N, R18E
Blaine County, Idaho
1891 decree #37-00043

Explanation of amount of water claimed:

Pursuant to the decreed water right, 100 inches was appurtenant to the East 1/2 of the NE 1/4 of Section 14, T 1 North, R 18 East, which land was then an eighty acre parcel. The DWR has no record of that water right being divided up since the East 1/2 of the NE 1/4 was split. It is now Lots 1, 2, and 3 of Sleepy Acre Subdivision. Claimants own lot 1, a 36 acre parcel making up most of the NE NE of section 14.

The water master records show Lot 1 as having 41.2 inches of water, with Lots 2 and 3 each having 29.4. Claimants take the position that their property, which was the original homesite of this ranch, is entitled to the entire 100 inches, a fact represented to the claimants when this land was purchased.

Even if the water is divided up prorata among all three lots, the claimants' portion should be 45 inches rather than 41.2 inches.

This claim is accompanied by a fact sheet explaining why claimants require more than the usual .02 cfs per acre.
