11. Place of use in counties: BLAINE

12. Do you own the property listed above as place of use? Yes

13. Other Water Rights Used:

14. Remarks:

Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.

The total instantaneous diversion of water from all points of diversion under Transfer 5667 shall not exceed 3.93 cfs, nor a total combined annual volume of 1682.2 af.

Right 37-07002 is limited to the irrigation of 62.0 acres in the place of use described above in a single irrigation season.

Right 37-07309 is limited to the irrigation of 253.0 acres in the place of use described above in a single irrigation season.

Right A37-12089 is limited to the irrigation of 192.6 acres in the place of use described above in a single irrigation season. Rights 37-07002, 37-07309, and A37-12089 when combined shall not exceed a total diversion rate of 3.93 cfs.

Approval of Transfer 5667 does not confirm SRBA Claimed Right A37-12089.

Three points of diversion are located within SWSWSW, S35, T01N, R18E.

The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted for irrigation purposes under this right and shall only divert groundwater under this right for irrigation purposes when water from the appurtenant surface water rights cannot be delivered to the right holder.

Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used for irrigation purposes without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.

THIS CLAIM IS FOR THE EXPANSION OF ACRES OF THE SYSTEM LICENSED UNDER 37-7309 & 37-7002 WHEN THE SYSTEM WAS PUT INTO A SPRINKLER PIVOT SYSTEM.

Right A37-12089 is limited to the irrigation of 192.6 acres in the place of use described above in a single irrigation season. Rights 37-07002, 37-07309, and A37-12089 when combined shall not exceed a total diversion rate of 3.93 cfs.

Approval of Transfer 5667 does not confirm SRBA Claimed Right A37-12089.

Three points of diversion are located within SWSWSW, S35, T01N, R18E.

Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted for irrigation purposes under this right and shall only divert groundwater under this right for irrigation purposes when water from the appurtenant surface water rights cannot be delivered to the right holder.

If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used for irrigation purposes without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.

This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.

The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
