MEMORANDUM

TO: SRBA Claim Files Based on Portions of Rights 37-0047 & 37-0307

FROM: Corey Skinner

DATE: November 14, 2006

SUBJECT: SRBA Review & Recommendation(s)

Numerous SRBA claims have been filed based on portions of rights 37-0047 and 37-0307. Review of records indicates that various lot owners within the Poverty Flats Subdivision have filed these claims. Review of IDWR water right records indicates that right 37-0047 was decreed for 6.0 cfs for the irrigation of five 40-acre tracts that are now portions of Poverty Flats Subdivision, in particular, the Southwest $\frac{1}{4}$ of Section 23 (T01N, R18E) and the Northeast $\frac{1}{4}$ of the Northwest $\frac{1}{4}$ of Section 26 (T01N, R18E). Review of IDWR water right records indicates that right 37-0307 was decreed for 1.6 cfs for the irrigation of four 40-acre tracts that are located to the west of Poverty Flats Subdivision, in particular, the Southeast $\frac{1}{4}$ of the Southwest $\frac{1}{4}$ of Section 22 (T01N, R18E), the East $\frac{1}{2}$ of the Northwest $\frac{1}{4}$ and the Southwest $\frac{1}{4}$ of the Northeast $\frac{1}{4}$ of Section 27 (T01N, R18E). Further review of IDWR records indicates that these two particular decreed rights did not historically overlap any other rights on their historical places of use. Therefore, there does not seem to be any problem with assuming that these rights were moved via unrecorded transfer(s) to the claimed place(s) of use now consisting of the Poverty Flats Subdivision.

The SRBA review consisted of determining the historically irrigated land on the property now consisting of the Poverty Flats Subdivision. Examination of various years of aerial photos helped to determine an approximate shape outlining the historically irrigated land. This shape (outlined in yellow) is shown on page 4 of this memo showing various years of aerial photos. The shape consists of approximately 199 acres of land. Note that the shape includes some land, in particular Lot 5 (owned by Ken Smith) and Lot 8C (owned by Fredrick Brown) that do not currently (as of this date) have SRBA claims filed by the property owners for their irrigation use. Water master records indicate that both of these properties &/or owners, Lot 5 (owned by Ken Smith) and Lot 8C (owned by Fredrick Brown), have been delivered water. The owners of these properties have been contacted in an effort to try and solicit SRBA claim filings for their water use.

Because the historically irrigated ground consists of approximately 199 acres there is a slight problem because the originally decreed place of use for right 37-0307 only consisted of four 40-acre tracts, at most 160 acres. Note that the approximately 199 acres matches very closely with the originally decreed place of use for right 37-0047, five 40-acre tracts, or potentially 200 acres. For the claims based upon right 37-0307, a set of allowable irrigated acres per claim was established by proportionately distributing the at most 160 acres amongst the claims within the historically irrigated 199 acres based on the amounts of water for each individual claimant as recorded in water master records. For example, original decree was for 1.6 cfs for 160 acres or 0.01cfs/acre so if watermaster records show delivery of 0.14 cfs then a 14-acre limit is recommended. The following table summarizes the individual recommendations for the claims currently filed, and that need to be filed, based on rights 37-0047 and 37-0307....

Note that the total recommended amounts for the claimed portions of right 37-47 total 5.97 cfs for the irrigation of 198.4 acres, compared to the original decreed amount of 6.0 cfs for the irrigation of five 40-acre tracts, and compared to the total water master record of 5.97 cfs. Also note that the total recommended amounts for the claimed portions of right 37-307 total 1.60 cfs for the irrigation of 145 acres, compared to the original decreed amount of 1.60 cfs for the irrigation of four 40-acre tracts, and compared to the total water master record of 1.63 cfs. *It should be noted that these totals include proposed recommendations for claims that have not yet been filed as of this date (Toothman or Zenoniani portion of 37-307 for Lot # 4, Smith portions of 37-47 and 37-307 for Lot #5, and Brown portions of 37-47 and 37-307 for Lot #8C.* Also in order to insure that no more than 1.6 cfs will be recommended for the portions of right 37-307, the proposed recommendation for the Brown portion of right 37-307 is 0.24 cfs (water master records show 0.27 cfs). This particular recommendation was selected to be reduced since it has the highest duty of water (rate per acre), when compared to the original decree, and other claimed portions based on the original decree.

RE: Snake River Basin Adjudication (SRBA)
Claim Numbers: A37-00047D and A37-00307D

Dear Ms. Lete:

Per my phone conversation with Frank Robinson this morning, here are amended claim forms with the correction in legal description requested. You need to sign, have your signature notarized, and return the claim forms to me in order for me to change our records here. I've enclosed a pre-addressed envelope for your convenience.

Mr. Robinson mentioned that you may be in the process of selling the property to which the above claims are appurtenant. I am also enclosing a Notice of Change of Ownership form that you may wish to include as part of your closing package to the new owners, as it will be their responsibility to notify the Department of the change.

If you have any questions or concerns, please don't hesitate to contact me at this office. Thank you for your continued cooperation in the SRBA.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Vikie Hancock'.

Claims in name of Judy Lete, claimed in wrong section. Should be in Section 26 T01N R18E per plat map. Frank Robinson (husband) called to request amendment as they are in process of selling the property. I told him that I could mail up the amended claims for Judy's notarized signature and she could send them back. I explained that the new owner would need to change the ownership of the claims as soon as purchased, and that these were just claims in the SRBA, not decreed water rights at this point. He said he understood. I will attach plat map to claims.

MEMO

TO: File

DATE: 1/25/2000

FROM: J E STANTON

SUBJECT: Claims A37-00047D & 00307D, Judy Lete

These claims are for Lot 8A of Poverty Flat Subdivision. Our plat book shows this to be in the NW/NW Sec. 26, but the claims show it in Sec. 27. It therefore appears that the claimed place of use is in error. Neither of the underlying water rights are appurtenant to this land, so it hard to say whether or not these claims actually belong on this property. Right 37-00429 was decreed to this tract; 1 cfs has been claimed on other land, and 2.2 cfs remains unclaimed. A realtor asked about the rights on this property, which is why I am involved with it. Printouts, including a plat map, were faxed to the realtor. I do not plan to take action beyond crafting this memo.
