Re: Sun Valley Ranch LLC: Amended Claims & Change of Ownership

Dear Doug:

I am resending the enclosed amended claims now that the warranty deed has been obtained from our client. We have not resubmitted the purchase agreement that was sent to you on July 14, 2005, since you stated that these documents were inadequate. In addition, I have included the original check for \$25.00 and an additional check for \$50.00 to cover the costs of the change of ownership forms appurtenant to the rights that have been partially decreed. As before stated if any other costs are needed during the processing of these documents please call our office and we will be glad to resolve the issue.

Just for your information our client will not receive the deed for the JD Spring Creek Ranch until August 12, 2005. Therefore, we will not be resubmitting these other amended claims until that point.

Re: Sun Valley Ranch LLC: Amended Claims & Change of Ownership

Dear Doug:

Please find the enclosed amended claims for Sun Valley Ranch LLC. These claims are being amended as a result of your recommendations from our meeting on June 16, 2005 regarding SC Ranch LLC. The amended claims should create a permissible place of use appurtenant to the lands formerly known as Diamond Dragon Ranch (owned by E. Hadley Stuart Jr.). These claims are based on the use of the lands in 1987 and should correct the errors within in the current claims. In addition, it two more claims are being submitted (37-67A and 37-69A) since these rights were never claimed in the initial claiming process. However, these two rights have continually been delivered by the local Watermaster. In order to obtain the shapefiles for the PPU please contact me at my new email daren.nelson@brockwayeng.com and I will send them via email.

In order to change ownership of these rights two forms have been submitted (claimed rights and partially decreed rights). An attached purchase agreement for the property is also included. The final closing of these transactions will be completed shortly and the appropriate deeds will be submitted to IDWR as soon as the transaction is complete. In addition, a limited power attorney is attached that signifies Charles E. Brockway as the authorized agent for Sun Valley Ranch LLC.

I have included a check for a total of \$25.00 to cover the costs of the change of ownership forms appurtenant to the rights that have been partially decreed. If any other costs are needed during the processing of these documents please call our office to discuss the matter. Our client wishes that these amendments be processed as soon as possible and if or any other agent have any questions regarding the enclosed documents, please feel free to give our office a call.

Sincerely,

Daren T. Nelson.

Supporting Narrative

Sun Valley Ranch, LLC (Diamond Dragon Ranch): Amended Claims

Project #: 787-03-2005

Brockway Engineering is submitting the attached amended claims, in order to create a permissible place of use appurtenant to the property currently owned by E. Stuart Hadley Junior. It has been the recommendation of Douglas Jones at IDWR to amend these claimed rights so that they can be included in a PPU and allow flexibility in the management of these rights. These claimed rights are being amended based on how the rights were being used in 1987. In addition, two rights are being claimed that are appurtenant to the property that were not formerly claimed in the SRBA. SC Ranch, LLC has entered a purchase agreement with E. Stuart Hadley Jr. regarding the Diamond Dragon Ranch, and will close the transaction regarding the ownership of this property shortly. However, SC Ranch, LLC would like to proceed with the change of ownership of these rights and these amendments in order to update and fix errors that have occurred in the process of claiming many of these rights.

Based on our research of the IDWR water right database, eighteen (18) water rights are appurtenant to the E. Stuart Hadley Jr. (Diamond Dragon Ranch) property in Township 1S and Range 18E. According to the legal description acquired from the attached purchase agreement the ranch is ~ 1813 acres. In addition, according to aerial photos ~1551.5 of these acres were being irrigated in 1987. In the near future, when IDWR reviews these claims, the total allowed acreage of this property would probably equal the amount of acreage that was being irrigated in 1987. Therefore these claimed rights are being amended in order to reflect the 1551.5 acres that was being irrigated on the ranch in 1987.

To assist in the understanding of these rights, I have included a the following table that lists the priority date, source, status, diversion rate, allowed uses, etc. of each right owned by the ranch and used for irrigational purposes. In addition, see the attached current water right map to identify the claimed location of the POU's and POD's of each water right, and the boundaries of the properties. After these rights are amended the total claimed irrigatable area of the permissible place of use should be 1551.5 acres and the POU and POD's of the amended claims should reflect this.

Group #1 water rights are seven (7) water rights that have been claimed in the SRBA and have been decreed in the Frost Decree. All of these rights are being diverted from the Big Wood River and are being used for irrigation. The claimed diversion rate of these claims are higher than the standard allowed limit of 0.02 cfs/acre and all of the rights in this group have combined limits above this standard (0.035 (37-60, 37-61, and 37-62), 0.0375 (37-230, 37-231B, and 37-232), or 0.05 (37-577AZ) cfs/acre). However, within the remarks of 37-230, 37-231B, and 37-232 it states that the water applied to the POU exceeds the standard limit and are based on historical water master records that show that larger diversion rates are needed due to the extremely porous soils. The remarks also

state that the water that is applied in excess of the standard enters the ground water system and is returned to the Big Wood River. Thus, these higher diversion rates should be justified.

Table 3: Current Status of the Diamond Dragon Ranch Water Rights

Water Right #	Priority Date	Source	Diversion (cfs/afa)	Beneficial Use	Status in SRBA	Allowed Acreage
Group #1: Claimed Irrigation Rights that Exceed the Standard Rate

37-68A	06/26/1883	Big Wood River	0.98/---	Irrigation	Claim	614
37-70	05/15/1887	Big Wood River	1.98/---	Irrigation	Claim	520
37-71B	05/01/1882	Big Wood River	0.50/---	Irrigation	Claim	40
37-2492	09/16/1948	Big Wood River	2.80/490	Irrigation	Claim	140
37-2538	06/20/1953	Big Wood River	1.86/326	Irrigation	Claim	93
37-4266	03/01/1910	Big Wood River	2.26/396	Irrigation	Beneficial Use Claim	113
Group #3: Irrigation Rights Not Claimed in the SRBA						
37-67A (Portion)	06/26/1883	Big Wood River	2.80/---	Irrigation	Frost Decree	---
37-69A (Portion)	06/26/1883	Big Wood River	2.55/---	Irrigation	Frost Decree	---

Group #2 water rights are nine (9) water rights that have been claimed in the SRBA and have been decreed in the Frost Decree except 37-2492, 37-2538, and 37-4266. Both 37-2492 and 37-2538 have currently been licensed and 37-4266 is still a beneficial use claim. All of these rights are being diverted from the Big Wood River except 37-2492 and 37-2538, which are diverted from ground water sources. The claimed diversion rates of these rights are all either below or at the standard allowed limit of 0.02 cfs/acre.

Since 37-4266 is still a beneficial use claim the validity of this right still needs to be determined. It is our understanding that ERO Resources out of Boise is currently working with IDWR to regarding the priority of this right.

William M. Black owned all of the decreed rights at the time of these decrees. E. Stuart Hadley then acquired this property and the water rights associated with the property since the time of these former decrees. However, some of these rights were still in William M.

Blacks name when these claims were being made in 1987. The included area within the POU of these original rights included land that is not currently owned by Hadley. Thus, in 1987 when these rights were claimed the rights were divided to reflect the new ownership of the property. Group #3 water rights are two rights (37-67A and 37-69A) that were originally decreed in the Frost Decree and are appurtenant to a portion of the property, but were never claimed in the SRBA. Wood River Ranch owns a portion of the property that these rights POU describe and have claimed the corresponding portions of these rights. However, the remainder of the two rights have never been claimed by the ranch, even though the Watermaster for this region has continued to deliver these rights. Therefore, these two rights are now being claimed.

Thank you for your time and thorough review of these amended claims. We would appreciate if these transactions could be approved and processed as soon as possible. If you have any questions concerning this narrative or any of the amended claims, please do not hesitate to contact our office.
