IDAHO DEPARTMENT OF WATER RESOURCES
RECOMMENDED WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 61-12301

NAME AND ADDRESS: TERESA WEECE
4210 SW AVIATION DR
MOUNTAIN HOME ID 83647

JACKIE WEECE
4210 SW AVIATION DR
MOUNTAIN HOME ID 83647

SOURCE: GROUND WATER

TRIBUTARY:

QUANTITY: 0.040 CFS

The quantity of water under this right shall not exceed 13,000 gallons per day.

Right Nos. 61-7751 and 61-12301 are limited to a total combined diversion rate of 0.06 cfs.

PRIORITY DATE: 03/13/2000

POINT OF
DIVERSION: T03S R06E S33 SENE Within ELMORE County

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
DOMESTIC	01/01 12/31	0.040 CFS
Domestic use is for 1 home.		

PLACE OF USE: DOMESTIC in ELMORE County

T03S R06E S33 SENE

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

The quantity of water decreed for this water right is not a determination of historical beneficial use.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Right No. 61-7751 is also diverted through point of diversion described above.

Parcel No. RP00004001016A

Property is also known as East 1/2 Lot 16, Block 1, Airport Subdivision.

IDWR Review of 61-12301

Priority Date – The joint well use and maintenance agreement between Loree Saunders (prior owner of the claimed place of use) and Ricky and Kimberly Holden was dated May 10, 2001. The well driller's report for the claimed point of diversion lists Rick Holden as the well owner with a 9/20/1999 completion date. The claimed priority date of 2/9/2000 appears to be taken from a Central District Health application for a subsurface sewage disposal system, but the application does not confirm water was being beneficially used on Lot 16, Block 1, Airport Subdivision as of that date. A District Health Mortgage Survey Report for Sewage and Water Systems that was authorized on 5/13/2005 indicates the sewage disposal system was inspected on 3/13/2000. Therefore, the date of the sewage disposal system inspection was used for the recommended priority date for this claim.

Point of Diversion – The point of diversion was located in IDWR's Wells spatial data layer. The point of diversion was confirmed to be in T03S, R06E, S33, SENE. IDWR's Point of Diversion spatial data layer for the recommendation was updated to match the location shown for the well. Another water right that utilizes the same point of diversion was found. It is licensed water right 61-7751 in the name of Rick and Kimberly Holden.

Source – The source for water diverted from a well is Ground Water.

Place of Use – The 2004 aerial photo confirms a structure is located on the East ½ of Lot 16, Block 1, Airport Subdivision. The Elmore County tax lot data indicate Jackie Weece is the owner the property where the structure is located. IDWR's Place of Use spatial data layer for the recommendation was updated to include the structure shown in the aerial photo. No overlapping water rights were found for this place of use.

Purpose of Use and Period of Use – The joint well use and maintenance agreement states the water shall be used for domestic purposes only. Claims for domestic purposes are recommended for year round use if year round use was claimed.

Quantity – The well driller's report shows the well produced 15 gallons per minute during a 2 hour pump test. The amount claimed is 0.04 cfs (18 gallons per minute). The in office review/examination for licensing 61-7751 includes a theoretical calculated capacity for the system of 0.06 cfs based the lift in feet from the well driller's report, and the horsepower of the pump. Therefore, this claim can be recommended for the 0.04 cfs claimed with a combined diversion rate limit with 61-7751 of 0.06 cfs.

Summary – The appropriate conditions were added to the recommendation, and IDWR's Claim Verification Report was completed.
